270-X-2-.01 **Education Requirements For Examination-Dentists.**

(1) Pre-Dental. A minimum of three (3) years academic study of ninety (90) semester hours or its equivalent. This will include a minimum of:

- Biology.....................................8 hours
- Chemistry..................................16 hours
- Physics..........................8 hours
- Mathematics.................................6 hours
- Non-Science................................30 hours
  (12 of which must be English or its equivalent)

(2) Must be a graduate of a school or college of dentistry approved by the Board.

(3) Must successfully complete the National Dental Board Examination Parts one (1) and two (2) administered by the Joint Commission on National Dental Examinations.

(4) A person's failure to satisfy subsection (1) above shall not prevent that person from taking the dental licensure examination provided for in the Alabama Dental Practice Act, Code of Ala. 1975, §§34-9-1, et seq., provided that person has satisfied the requirements of subsection (2) above.

**Author:** James S. Ward  

270-X-2-.02 **Applications For Dental License, Qualifications Of Applicants And Licensing Of Persons Licensed In Other States.**

(1) All applicants for dental examination must file his/her application, giving first, middle and last name, and all credentials pertaining to the examination, along with examination fee and certificate fee in an amount set forth in Code of Ala. 1975, §34-9-16, with the secretary-treasurer not less than thirty (30) days prior to the date of the examination.
270-X-2-.03 Licensure Of Foreign Graduates.

(1) Definitions:

(a) GRADUATE OF A FOREIGN DENTAL SCHOOL shall mean any person of good moral character, nineteen (19) years of age or more, who has been graduated and admitted to the degree of doctor of dental surgery, doctor of dental medicine, or other equivalent degree by any university or college authorized to grant said degree located in any country other than the United States, its territories, districts, or possessions, or the Dominion of Canada.

(b) APPLICANT shall mean any person applying for licensure pursuant to the provisions of this rule and of any applicable provisions contained in Code of Ala. 1975, §34-9-1, et seq.

(c) BOARD shall mean the Board of Dental Examiners of Alabama.

(2) Requirements for Licensure. In addition to meeting the requirements set forth in Code of Ala. 1975, §34-9-10, with respect to moral character, age, and graduation, the applicants shall submit the following credentials to the Board:

(a) An application, completed and verified by the oath of the applicant, upon such form as the Board deems appropriate, accompanied by a recent un-mounted autographed photograph of the applicant.
(b) Evidence satisfactory to the Board that the applicant has completed at least three (3) years of pre-professional post-secondary academic training and four (4) years of professional training in the field of dentistry.

(c) At least two (2) academic years of formal clinical training in a United States or Canadian accredited institution and the awarding or receiving of a D.M.D. or D.D.S. degree from said United States or Canadian accredited institution shall be required.

(d) A copy of the degree or diploma issued to the applicant by the college or university conferring the same, properly authenticated by an official of said college or university authorized to make such authentication.

(e) A copy of the subjects taken and the credits earned by the applicant and his/her courses at such college or university, duly authenticated by an official of said college or university authorized to make such authentication.

(f) In the event that the degree, diploma, or transcript required be furnished the Board hereunder such will be in a language other than the English language, each such document shall be accompanied by a translation thereof into the English language, which such translation shall be certified by an officer or other individual acceptable to the Board.

(g) Some form of documentation, duly and properly authenticated by an official authorized to make such authentication, that the applicant has completed at least two (2) academic years of formal training in a United States or Canadian accredited institution and has received a D.M.D. or D.D.S. degree from said United States or Canadian accredited institution.

(h) Two (2) letters of recommendation written by persons acceptable to the Board which shall certify to the Board the good moral character of the applicant and his/her age, qualifications, background, and experience, if any.

(3) Reciprocity. In the event that the applicant has been tested, licensed, or qualified in some other state of the United States or its districts, territories, or possessions, the Board may, but shall not be obligated to, accept the pretesting credentials and evidence submitted to such other states provided that such credentials and pretesting meet the minimum standards of the Board as set forth in this rule and by law.
Fees. An applicant shall submit to the Board with his/her application a fee to be determined by the Board within the limits set by law.

Time Limitations. An applicant shall take the Board's regular examination within one (1) year of the time that he/she has made application to the Board and satisfactorily completed the pre-examination requirements set forth in this rule; otherwise, his/her application and any other requirements that he/she has failed to meet shall be deemed to be lapsed and void.

Author: James S. Ward

270-X-2-.04 Fees For Licensure Applicants.

(1) Fees are not refundable at the discretion of the Board.

(2) Examination fees are to be determined by the Board.

Author: James S. Ward

270-X-2-.05 Examination Rules And Issuance Of Licenses.

(1) No person other than Examiners and applicants for licensure shall be present in the rooms when and where examinations, either written, clinical or laboratory procedures are being conducted except by permission of examiner in charge.

(2) Any applicant found guilty of receiving or giving aid during the theoretical, operative, clinical, or prosthetic laboratory examination will be dismissed. Dismissal will constitute a failure.

(3) No smoking is allowed during examinations.
Examination paper will be furnished by the Board. No other paper of any kind, or textbooks, will be allowed in the examination room unless approved by the examiner in charge.

All written examinations must be written in the English language.

Board members are not permitted to interview applicants who have failed the examination. All such matters shall be directed to the secretary-treasurer in writing by the applicant.

Board members are not permitted to disclose grades made by any applicant to anyone other than the applicant.

When an applicant for licensure successfully passes the written or clinical examination, that passing grade shall carry over and be valid only until the next available examination.

In addition, examinations shall be conducted and licenses issued in compliance with Code of Ala. 1975, §§34-9-11. Author: James S. Ward

Replacement And/Or Duplicate Certificate.

Replacement certificate must be requested in writing. The request for replacement must include the reason for request.

Replacement certificate must be marked "replacement certificate."

Replacement certificate should contain date that original certificate was issued and must be signed by the entire Board and contain the date the duplicate is issued.
(d) Fee to be set by the Board.

(2) Change of name on license certificate

(a) Any individual desiring a change of name on their certificate must notify the Board in writing and enclose the following.

1. The reason for the name change (i.e. the legal document used to change the name)

2. Original license certificate, if available

3. Fee to be set by the Board

(b) The original license certificate will be destroyed upon issuance of a new certificate so marked as “change of name certificate”.

(3) Duplicate certificate.

(a) Any licensee requesting a duplicate certificate must notify the Board in writing and enclose the following:

1. The reason they are requesting a duplicate certificate and where it will be held.

2. Fee to be set by the Board.

Author: James S. Ward

270-X-2-.07 Annual Registration For Dentists.

(1) The Secretary-Treasurer of the Board shall furnish to each such licensee, on or before September 1st of each year, a registration form which contains space for the insertion of his/her name, address, date and number of his/her license certificate and such other information as the Board shall deem necessary.

(2) On or before the first day of October of each year, every dentist licensed to practice in the State of Alabama shall transmit to the Secretary of the Board the completed form
prescribed by the Board, together with the annual registration fee.

(3) Any license and license certificate previously granted shall automatically be suspended if the holder fails to secure the annual registration certificate before January 1st of each year.

(a) The annual registration fee for the dentists shall be in an amount fixed by the Board.

(4) Any dentist whose license shall be automatically suspended for reason of failure, neglect or refusal to secure the annual registration certificate shall be reinstated by the Board upon payment of a penalty fee as determined by the Board plus all accrued annual registration fees up to a maximum of five (5) years accompanied with the prescribed form of annual registration of such license.

(5) The Board shall waive the annual payment of fees and issue a current annual registration certificate to any licensee who because of age or physical disability has retired from the practice of dentistry or who is suffering a malady of a lingering or permanent nature. This waiver shall be effective so long as the retirement or these conditions continue. The licensee shall provide any documentation required by the Board to establish eligibility for this waiver. The Board shall also waive annual registration and the payment of annual fees while any licensee is on temporary active duty with any of the armed forces of the United States and the waiver of fees shall be effective so long as temporary active duty continues. For purposes of this rule, temporary active duty shall not exceed three (3) years.

(6) All licensed dentists shall also comply with the provisions of Code of Ala. 1975, §34-9-15.

Author: James S. Ward

Author: James S. Ward

270-X-2-.09 Change Of Address Of Licensed Dentists. All licensed dentists upon changing his/her place of practice shall comply with Code of Ala. 1975, §34-9-14.
Author: James S. Ward

270-X-2-.10 Teaching/Special Teaching Permits. Teaching/Special Teaching permits shall only be issued in compliance with Code of Ala. 1975, §34-9-8.
Author: James S. Ward

270-X-2-.11 Alabama Uniform Controlled Substances Act.

(1) Pursuant to the Alabama Uniform Controlled Substances Act, specifically, Code of Ala. 1975; 20-2-50 and 20-2-52, it shall be necessary for all licensed dentists and dentists who are issued special teaching permits who dispense, administer, prescribe, maintain or otherwise have in their possession controlled substances to annually register with the Board of Dental Examiners of Alabama and obtain a State Controlled Substance Number from said Board.
(a) The requirement stated in paragraph (1) of obtaining a registration certificate is waived for post-doctoral dental students and residents from the start date of each post-doctoral dental student’s/resident’s training until the end of each post-doctoral dental student’s/resident’s training period. Each post-doctoral dental student/resident shall be issued a controlled substance number following the acceptance of an application submitted to the Board. Each post-doctoral dental student/resident must renew his/her controlled substance number annually.

(b) Dental post-doctoral students and residents shall mean those enrolled in ADA accredited graduate programs at the UAB School of Dentistry or UAB Hospital, or in other such dental colleges, hospitals or institutions in Alabama, as may be approved by the Board.

(c) A dental post-doctoral student or resident for whom the requirement of obtaining a registration certificate is waived shall perform his/her work within the facilities of such dental colleges, hospitals and institutions under the supervision of an instructor and as adjunct to his/her post graduate course of study or training.

(2) This State Controlled Substance Number must appear on prescription blanks as well as the Drug Enforcement Agency Number. Every written prescription issued in this state by a licensed dentist and/or post-doctoral dental student/resident in possession of a Board issued controlled substance number shall contain two (2) signature lines. Under one signature line shall be printed clearly the words "product selection permitted." The licensed dentist shall communicate instructions to the pharmacist by signing on the appropriate line.

(3) Registration under this rule will be due at the same time as the annual license registration to practice dentistry. Before renewing a state controlled substance license issued by the Board, the dentist must have a current registration to access the controlled substances prescription database program maintained by the Alabama Department of Public Health (e.g., the Alabama Prescription Drug Monitoring Program). In order to obtain a state controlled substances number the dentist must possess a current and valid registration from the United States Drug Enforcement Agency. A post-doctoral dental student/resident shall be required to use their school’s facility United States Drug Enforcement Agency issued number.

(4) The fee for registration and the State Controlled Substance Number shall be an amount to be fixed by the Board.
Any licensed dentist and/or post-doctoral dental student/resident dispensing, administering, prescribing, maintaining, or possessing controlled substances who has not registered or obtained a State Controlled Substance Number will be deemed in violation of the Uniform Controlled Substances Act and will be subject to the penalties prescribed by law.

Author: Board of Dental Examiners of Alabama

270-X-2-.12 Maintenance Of Controlled Substances Records And Inventory.

(1) Every dentist certified to dispense controlled substances by the Board of Dental Examiners of Alabama shall be required to maintain an accurate inventory and separate dispensing record of all controlled substances in Schedules II through V dispensed in his/her offices. The inventory shall account for all controlled substances obtained or received by the dentist's office or the dentist regardless of whether the said controlled substances were purchased or obtained at no cost. The dispensing record shall contain the following information:

(a) The date the controlled substance was dispensed;

(b) The method by which the controlled substance was dispensed (i.e., administered in office or released to patient);

(c) The name of the controlled substance dispensed (trade name or generic name);

(d) The name of the patient to whom the controlled substance was dispensed; and

(e) The quantity of the controlled substance dispensed.

(2) The inventory and separate dispensing record required by this rule shall be kept in the office of the dentist for a period of five (5) years from the date the controlled substances are dispensed and shall be made available for
inspection by agents of the Board of Dental Examiners of Alabama or any law enforcement agency.

(3) Failure to maintain and make available the inventory and separate dispensing record required by this rule shall be considered a failure to maintain effective controls against diversion of controlled substances into other than legitimate dental channels.

(4) Whenever any dentist desires or is required to dispose of any controlled substances located in his/her office, he/she shall do so in accordance with the procedure for the disposing of controlled substances established by the Drug Enforcement Agency or pursuant to any rules or regulations promulgated by that agency.

Author: James S. Ward

270-X-2-.13 Statement Of Charges And Notice Of Hearing Before Imposition Of Disciplinary Penalties. No imposition of any of the disciplinary penalties set forth and outlined in Code of Ala. 1975, §34-9-18(b), shall be taken until the licensee has been furnished a statement in writing of the charges against him/her and with a notice of the time and place of the hearing. The statement of charges shall be in compliance with Code of Ala. 1975, §§34-9-24, 41-22-12.

Standards For Infection Control In Dental Offices.

All dental offices must conform to and comply with the current recommendations and guidelines of the Centers for Disease Control and Prevention (C.D.C.) relating to infection control practices for dentistry and/or dental offices. The recommendations and guidelines of the C.D.C. may be obtained from the United States Department of Health and Human Services, Public Health Service or through the Board of Dental Examiners of Alabama. It is the responsibility of all currently licensed dentists, dental hygienists, dental assistants and all other personnel who are utilized by a licensed dentist and who assist in a dental practice and may be exposed to body fluids such as blood or saliva to maintain familiarity with these recommendations and guidelines.

Author: James S. Ward

Training And Educational Requirements For The Use Of Parenteral Sedation.

(1) In order to satisfy the formal training requirements imposed by law for the issuance of a parenteral sedation permit, a dentist must have completed a minimum of sixty (60) hours of instruction and the management of at least the number of patients recommended by the American Dental Association's Council on Dental Education. The hours of instruction must cover the following areas:

(a) Patient evaluation and medical risk assessment;

(b) Management of medical emergencies, including the principals and techniques of advanced life support; and

(c) Parenteral conscious sedation techniques.

(2) The training program attended by the dentist must be approved as acceptable for training in parenteral sedation by the Board of Dental Examiners of Alabama.

Author: James S. Ward
Chapter 270-X-2  

Dental Examiners

270-X-2-.17 Criteria For On-Site Inspection For The Use Of General Anesthesia And Parenteral Sedation.

(1) This rule contains the procedures, criteria, and information which are mandatory for the clinical administration of general anesthesia and parenteral/moderate sedation. These shall be used by the inspecting team in determining whether a dentist's facilities, equipment, and personnel have satisfied the requirements imposed by law and this rule for the issuance of a general anesthesia or a parenteral/moderate sedation permit.

(a) Clinical Use of General Anesthesia and/or Parenteral/Moderate Sedation. Two (2) procedures utilizing general anesthesia and/or parenteral/moderate sedation should be observed. This portion of the evaluation should not exceed two (2) hours. No evaluation can be considered complete unless this part is included.

(b) Simulated Emergencies.

1. The examiners will simulate the emergency situations listed below. The permittee and office staff should be competent in managing all of these emergencies:

   (i) Laryngospasm
   (ii) Bronchospasm
   (iii) Emesis and aspiration of vomitus
   (iv) Management of foreign bodies in the airway
   (v) Angina pectoris
   (vi) Myocardial infarction
   (vii) Cardiopulmonary resuscitation
   (viii) Hypotension
Dental Examiners

Chapter 270-X-2

(ix) Hypertensive crisis

(x) Acute allergic reaction

(xi) Hyperventilation syndrome

(xii) Convulsion of unknown etiology

(xiii) Syncope

(c) Office Equipment, Records, and Emergency Medications.

1. All office equipment and records related to patient care should be available for inspection by the examiners.

2. Specific attention shall be directed to the following areas:

(i) The oxygen and supplement gas-delivery system; backup system

(ii) Provision for suction and backup system

(iii) Auxiliary lighting system

(iv) The gas storage facilities

(v) Suitability of the operatory

(vi) Patient transportation equipment (if used)

(vii) Recovery area

(viii) Sterilization areas

(ix) Preparation of medications

(x) Completeness of emergency anesthetic equipment and medications

(xi) Completeness of office patient-care records

(xii) Monitoring equipment

(d) Outline of Information that Shall be Obtained and Recorded in the Patient's Record. The information shall provide resource that aids in treatment planning and selection of the anesthetic and/or sedation and furnish needed data if an unexpected physiologic change occurs during the course of
surgical and/or operative procedure. A written record of this evaluation is a requirement for proper patient care. This section sets forth the material that should be obtained and recorded.

1. Vital Statistics. These shall minimally include:
   (i) Patient's full name
   (ii) Address - home and work
   (iii) Telephone - home and work
   (iv) Date of birth
   (v) Gender
   (vi) Marital status (name of spouse)
   (vii) Occupation
   (viii) Name of parent or guardian, if patient is a minor

2. Patient Evaluation (Medical History).
   (i) The patient's chief complaint, followed by history of the present illness or a statement about the patient's problem, should be recorded. The history shall fulfill two basic requirements:

   (I) It must elicit the core medical information which will enable the dentist to identify the risk status of the patient.

   (II) It shall provide written evidence that the process of patient evaluation did occur and that the treatment was logical.

   (ii) The Core Physical Examination. Vital signs include blood pressure, pulse rate, and respiratory rate. Preoperative blood pressure and pulse rate measurements shall be made and documented in the patient's record.

   (iii) Additional Data that Shall be in the Patient’s Record:

   (I) Documentation of the proposed procedure clearly indicated, as well as documentation that likely complications were discussed with the patient.
(II) A written formal consent for the proposed procedure.

(III) When indicated, adequate radiographs shall be available and shall delineate clearly the areas to be treated.

(IV) A record of the anesthesia and/or sedation shall be made. The anesthetic and other agents and amounts given shall be indicated. Preoperative, intraoperative and post-operative vital signs shall be recorded and any unusual reactions or complications shall be documented. Starting and ending times for anesthesia shall be recorded. The persons present during the procedure shall be noted.

(V) A record of prescriptions given shall be included. A duplicate copy of the prescription is preferred.

(e) Office Facilities and Equipment. This section deals with the physical requirements for conducting office anesthesia/sedation.

1. The fundamental physical requirements for the anesthesia and/or sedation facility are:

   (i) The Operating Room/Operatory - The operatory shall be large enough to adequately accommodate the patient on a table or in a dental chair and permit the anesthesia and/or sedation team, consisting of the dentist and two or three trained assistants, to move freely about the patient.

   (ii) The Operating Table or Dental Chair - The table or chair shall permit the patient to be positioned so the anesthesia team can maintain the airway, allows quick alteration of patient position in an emergency, provides a firm platform for the management of cardiopulmonary resuscitation, and provides easy access to the patient's oral cavity.

   (iii) Lighting Systems.

   (I) Room lighting shall be adequate to permit evaluation of the patient's skin and mucosal color.

   (II) There shall be provisions for auxiliary lighting should the power fail in the operatory. Backup lighting shall be battery powered and of sufficient intensity to permit completion of any procedure underway at the time of general power failure.

   (iv) Suction Equipment.
(I) Aspiration shall be provided either by a portable suction unit or by a central suction installation. It is important to provide for auxiliary suction should the pump or electrical power fail.

(II) Multiple suction tips, including tonsil suction tips, shall be available.

(v) Oxygen and Supplemental Gas-Delivery System.

(I) An oxygen and supplemental gas-delivery system capable of delivering metered oxygen and/or gas under positive pressure shall be required.

(II) Gas outlets for remote delivery systems shall be coded to prevent accidental administration of the wrong gas. Fail-safe mechanisms on anesthetic machines are mandatory.

(vi) Patient Recovery.

(I) Patients shall be retained in the surgery area until all protective reflexes have fully returned unless the dental staff is in immediate attendance at all times in the recovery area to continue vital-sign and airway observations.

(II) A patient recovering from a general anesthetic or sedation procedure shall be monitored in the recovery area. This recovery area shall include sufficient room to treat any emergency situation. The recovery area shall be equipped to provide oxygen under positive pressure, have adequate lighting, access to suction, and have electrical outlets for connecting cardiac monitoring and defibrillating equipment.

(vii) Drug and Instrument Preparation and Storage Area-An adequate outpatient facility shall contain an area conducive to the sterile preparation and storage of drugs used in anesthesia and/or sedation. There should be provisions for refrigeration to store certain drugs. The drug preparation area should include a secure storage site for narcotics and other dangerous drugs.

(viii) Gas Storage Area.

(I) Permissible Categories

I. Gas may be stored in a central location used by one or multiple practitioners within the same building.

II. Gas may be stored in the individual operatory.
III. There shall be reserve tanks of gas not connected for immediate use.

(II) Requirements

I. All gas storage shall be maintained according to local building, fire and safety codes.

II. Gas stored in a central location shall have a central low-pressure alarm, which shall be easily heard in the treatment area where the procedure is being performed. In lieu of a central alarm, a daily gas log may be maintained and checked by the dentist.

(f) Monitoring.

1. The various methods and physiologic parameters used in monitoring patients shall be designed to immediately detect the changes produced either by dental stimulation or the anesthetics or sedatives employed.

2. All patients shall be monitored when anesthetics and/or sedation are employed. The doctor shall continually observe the patient's status and make moment-to-moment assessments of the patient's condition so necessary adjustments may be made.

3. Mechanical monitoring shall be used with every patient. Blood pressure, cardiac rate, oxygen saturation, end tidal CO\textsubscript{2} (capnography), and electrocardiogram (EKG) are the vital signs that are required to be monitored during the pre-anesthetic and/or pre-sedation and intra-and-postoperative intervals.

4. All equipment, both manual and automated, required by this rule for the monitoring of respiration, heart rate, and blood pressure under parts (g), (h), and (i) below must be maintained in each facility location where a dentist possesses a permit to use general anesthesia and/or parenteral/moderate sedation, and shall not be shared or transported between multiple facility locations. Documentation of compliance with manufacturers’ recommended maintenance of monitors, anesthesia delivery systems, and other anesthesia-related equipment should be maintained.

(g) Required Monitoring of Respiration.

1. Oximetry. Oximeter using a peripheral (finger, ear, or toe) transmitted wave-form monitor.
2. Capnography. Capnograph to monitor and measure the concentration or partial pressure of carbon dioxide in the respiratory gases, as well as, the competency of the airway for gas exchange. The dentist shall monitor ventilation and/or breathing by monitoring end tidal carbon dioxide unless precluded or invalidated by the nature of the patient, procedure, or equipment.

(h) Required Monitoring of Heart Rate.
   1. Pre-cordial stethoscope or pulse oximeter.
   2. Electrocardiogram (EKG).

(i) Required Monitoring of Blood Pressure. Systolic pressure, diastolic pressure, and heart rate must be recorded.
   1. Sphygmomanometer and stethoscope or an automatic equivalent.

(j) Emergency Drugs

1. At a minimum each facility in which general anesthesia and/or parenteral/moderate sedation is used by a dentist, must maintain a secure stock of current emergency drugs from each of the following categories. Any specific drug selected must satisfy current advanced cardiac life support (ACLS) and/or American Association of Oral and Maxillofacial Surgeons (AAOMS) standards:
   (i) Anticonvulsant (e.g., midazolam, propofol, diazepam)
   (ii) Antihypoglycemic (e.g., dextrose 50% injection)
   (iii) Anticholinergic (e.g., atropine)
   (iv) Antiarrhythmics (e.g., intravenous lidocaine, amiodarone)
   (v) Steroid (e.g., dexamethasone, hydrocortisone sodium succinate)
   (vi) Antihistamine (e.g., diphenhydramine)
   (vii) Cardiac stimulant/antihypotensive agent (e.g., epinephrine)
   (viii) Analgesic (e.g., morphine, meperidine, fentanyl)
(ix) Benzodiazepine antagonist (e.g., flumazenil)

(x) Narcotic antagonist (e.g., naloxone)

(xi) Paralytic Agent for Laryngospasms (e.g., succinylcholine, rocuronium)

(xii) Antihypertensive (e.g., labetalol, hydralazine)

(xiii) Nitrate (e.g., nitroglycerin)

2. The aforementioned emergency drugs must be maintained at each facility in which general anesthesia and/or parenteral/moderate sedation is used by a dentist and shall not be shared or transported between multiple facility locations.

(k) Personnel.

1. For the administration of parenteral/moderate sedation, the at least two (2) individuals, each appropriately trained, are required to be present throughout the procedure, consisting of the doctor and an assistant trained to monitor appropriate physiologic variables.

2. For the administration of general anesthesia, at least three (3) individuals, each appropriately trained, are required to be present throughout the procedure, consisting of the doctor who directs the general anesthesia, a person whose responsibilities are observation and monitoring of the patient and a third person who assists the operating dentist.

(l) The Board shall appoint examiners for the purpose of conducting the on-site inspections of dental facilities, equipment, and personnel. Any on-site inspection shall be conducted by a team of no less than two (2) examiners and/or one (1) examiner and an investigator for the Board.

1. All examiners appointed by the Board for the purpose of inspecting applicants for a parenteral/moderate sedation permit shall be dentists who are authorized to administer parenteral/moderate sedation

2. All examiners appointed by the Board for the purpose of inspecting applicants for a general anesthesia permit shall be dentists who are authorized to administer general anesthesia.

3. The examiners shall receive as compensation and expenses while in the performance of their duties the same amount
Chapter 270-X-2

Dental Examiners

paid to members of the Board and under the same terms and conditions.

(m) Upon receipt of an initial application for the administration of general anesthesia or parenteral/moderate sedation, a preliminary facility evaluation of the applicant’s facility will be conducted by examiners appointed by the Board. This preliminary facility evaluation will fully assess the safety of the facility, the presence of emergency equipment, the presence of necessary drugs, and the credentials of the individuals who will participate in the procedures. Subsequent to a satisfactory preliminary facility evaluation, a temporary permit for the administration of general anesthesia or parenteral/moderate sedation shall be issued. This temporary permit shall be valid for no more than ninety (90) days, until a subsequent evaluation which fully examines the criteria set forth in this rule is conducted by examiners appointed by the Board.

(n) If upon an initial application for the issuance of a permit for the administration of general anesthesia or parenteral/moderate sedation, the primary office of a dentist(s) has received a satisfactory on-site inspection and the dentist(s) also applies for the issuance of a permit to administer general anesthesia or parenteral/moderate sedation at a secondary office(s) or location(s), any on-site inspection thereof shall be limited only to the dental facility and equipment, provided that the same personnel satisfactorily evaluated at the primary office(s) of the dentist(s) will be engaged or involved in the administration of general anesthesia or parenteral/moderate sedation at the said secondary office(s) or location(s). If upon a request for renewal by a dentist(s) of a permit to administer general anesthesia or parenteral/moderate sedation at both his primary and secondary office(s) or location(s), the Board of Dental Examiners of Alabama determines that an on-site inspection of these office(s) or location(s) is required, the same procedure as outlined above in relation to the initial application for these permits shall be utilized.

(o) The examining team shall submit to the Board the report of their on-site inspection within fourteen (14) days from the date of said inspection. If the results of the initial evaluation are deemed unsatisfactory, the anesthesia certificate is immediately suspended and the applicant must reapply by submitting another application and fee to the Board.

270-X-2-.18 **The Practice Of Dentistry Across State Lines.**

(1) **Definitions:** The following definitions shall apply to these rules.

(a) **Practice Of Dentistry Across State Lines.** The practice of dentistry across state lines means the practice of dentistry as defined in Code of Ala. 1975, §34-9-6, as it applies to:

1. The rendering of a written or otherwise documented medical opinion concerning the diagnosis or treatment of a patient located within this state by a dentist located outside this state as a result of transmission of individual patient data by electronic or other means from within this state to such physician or his or her agent; or

2. The rendering of treatment to a patient located within the state by a dentist located outside this state as a result of transmission of individual patient data by electronic or other means from this state to such dentist or his or her agent.

3. This definition is not intended to include an informal consultation between a licensed dentist located in this state and a dentist located outside this state provided that the consultation is conducted without compensation to or the expectation of compensation to either dentist and does not result in the formal rendering of a written or otherwise documented medical opinion concerning the diagnosis or treatment of a patient by the dentist located outside this state.

(b) **Dental Emergency.** A dental emergency is a condition or circumstance in which a patient is experiencing acute oral trauma, severe pain, bleeding or infection of dental hard or soft tissue, requiring, in the best clinical judgment of the attending dentist based on the facts before him or her, immediate treatment. Conditions qualifying as dental emergencies include periapical inflammation, periapical infection, periapical abscess, acute perioral swelling, post extraction alvcolitis, post extraction bleeding, fractured or abscessed teeth, fractures of the jaw, and dislocated mandible.
(c) Irregular Or Infrequent. The irregular or infrequent practice of dentistry across state lines is deemed to occur if such practice occurs less that ten (10) times in a calendar year or involves fewer than ten (10) patients in a calendar year or composes less than one percent (1%) of the dentist’s diagnostic or therapeutic practice.

(2) License Requirement. To engage in the practice of dentistry across state lines in the State of Alabama, a person shall hold a current special purpose license to practice dentistry across state lines issued in accordance with the provisions of Code of Ala. 1975, §3-9-10 and this Rule or a person shall hold a full, unrestricted, and current license issued under Code of Ala. 1975, §34-9-10 and the Rules of the Board. Exemptions to this licensing requirement are as follows:

(a) A dentist who engages in the practice of dentistry across state lines in a dental emergency, as defined in this Rule and as set forth in Code of Ala. 1975, §34-9-7.

(b) A dentist who engages in the practice of dentistry across state lines on an irregular or infrequent basis, as defined in this Rule and as set forth in Code of Ala. 1975, §34-9-7.

(3) Qualifications For A Special Purpose License. An applicant shall be eligible for issuance of a certificate or qualification to practice dentistry across state lines if all of the following requirements are met:

(a) The applicant holds a full and unrestricted license to practice dentistry in any state of the United States or territories, other than this state, in which such individual is licensed.

(b) The applicant has not had any previous disciplinary action or other action taken against the applicant by any state or licensing jurisdiction, provided, however, that in the event of previous disciplinary or other action taken against the applicant, the Board may issue a certificate of qualification. If it finds that the previous disciplinary action or other action does not indicate that the dentist is a potential threat to the public.

(c) The applicant completes the submits an application form for a certificate of qualifications for a special purpose license on a form provided and approved by the Board in an amount established by the Board.
Any special purpose license issued by the Board to practice dentistry across state lines limits the license solely to the practice of dentistry across state lines. The special purpose license shall be valid for a period of three years, shall expire on a renewal date established by the Board in the third calendar year after its issuance, and may be renewed upon receipt of a renewal fee as established by the Board. Failure to renew a license according to the renewal schedule established by the Board shall cause the special purpose license to be inactive. An applicant may reapply following placement of the license on inactive status. The application shall meet the qualifications of Code of Ala. 1975, §34-9-10 in order to be eligible for renewal of the license.

A special purpose license to practice dentistry across state lines shall only be issued to an applicant whose principal practice location and license to practice are located in a state or territory of the United States whose laws permit or allow for the issuance of a special purpose license to practice dentistry across state lines of similar license to a dentist whose principal practice location and license are located in another state. It is the stated intent that dentist who hold a full and current license in the State of Alabama be afforded the opportunity to obtain, on a reciprocal basis, a license to practice dentistry across state lines in any other state or territory of the United States as a precondition to the issuance of a special purpose license as authorized by this act to a dentist licensed in the other state or territory. The Board shall determine which states or territories have reciprocal license requirements meeting the qualification of this section.

Effect Of Special Purpose License.

The issuance by the Board of a special purpose license to practice dentistry across state lines subjects the licensee to the jurisdiction of the Board in all matters set forth in Code of Ala. 1975, §34-9-1 et seq., and the Rules of the Board, including all matters related to discipline.

It shall be the affirmative duty of every licensee to report to the Board of Dental Examiners in writing within fifteen (15) days of the initiation of any disciplinary action against the license to practice dentistry of the licensee by any state or territory in which the licensee is licensed.

By accepting a special purpose license, the licensee agrees to produce patient medical records or other materials as requested by the Board and to appear before the Board or any of its committees following receipt of a written notice issued by the Board or its authorized representative. The
failure of a special purpose licensee to report, produce records, or appear as set forth above shall subject the licensee to the disciplinary penalties as set forth in §34-9-5.

(d) A special purpose license to practice dentistry across state lines is subject to each of the grounds for disciplinary action as provided in Code of Ala. 1975, §34-9-18, in accordance with the procedures set out in that section and the Alabama Administrative Procedures Act, Code of Ala. 1975, §41-22-1, et seq.

(e) The holder of a special purpose license shall comply with all laws, rules, and regulations governing the maintenance of patient medical records, including patient confidentiality requirements, regardless of the state where the medical records of any patient within this state are maintained.

(5) Annual Renewal For Fees And Licensing. The licensee holding a special purpose license must submit a completed renewal form prescribed by the Board on or before October 1st of the third year of the license. The licensee shall accompany such renewal form with a renewal fee established by the Board. These actions shall result in the licensee’s receipt of a current annual registration certificate authorizing him or her to continue the practice of dentistry under a special purpose license. Failure to secure the annual registration certificate by the 1st of January of the next year will result in automatic revocation of the special purpose license to practice dentistry across state lines.

270-X-2-.19 Licensure By Credentials.

(1) Definitions: The following definitions shall apply to these rules:

(a) LICENSURE BY CREDENTIALS. LICENSURE BY CREDENTIALS. Licensure by credentials is to be used to evaluate the theoretical knowledge and clinical skill of a dentist/dental hygienist when an applicant holds a dental/dental hygienist license in another state,
(b) BOARD. Board shall mean the Board of Dental Examiners of Alabama.

(c) ACT. Code of Ala. 1975, §34-9-1 et seq.

(2) To be eligible for licensure by credentials in the State of Alabama, the applicant shall meet the provisions of Code of Ala. 1975, §34-9-10 and this Rule, which are as follows:

(a) The dentist/dental hygienist must have been engaged in the active practice of clinical dentistry/clinical dental hygiene or in full time dental/dental hygiene education for the five (5) years or five thousand (5,000) hours immediately preceding their application.

(b) The applicant must hold a current, valid, unrevoked, and unexpired license in a state having examination standards regarded by the Board of Dental Examiners of Alabama as an equivalent to the Alabama standards. For purposes of this requirement, these exam standards shall include passing the National Dental Board Examination Parts 1 and 2 administered by the Joint Commission on National Dental Examinations.

(c) The Board of Examiners in the state of current practice shall verify or endorse that the applicant’s license is in good standing without any restrictions.

(d) The dentist/dental hygienist must not be the subject of a pending disciplinary action in any state in which the individual has been licensed which shall be verified through inquiry to the National Practitioner Data Bank, the health Integrity Protection Data Bank, the American Association of Dental Boards Clearing House for Disciplinary Information, or any other pertinent Bank currently existing or which may exist in the future.

(e) The applicant shall provide a written statement agreeing to be interviewed at the request of the Board.

(f) The applicant must successfully pass a written jurisprudence examination.

(g) There shall be certification from the United States Drug Enforcement Administration (DEA) and from the State board of any state in which the applicant is or has been licensed that the DEA registration is not the subject of any pending disciplinary action or enforcement of any kind, or that any state controlled substances permit has not been revoked, suspended, modified restricted or limited in any way.
(h) The applicant must submit affidavits from two (2) licensed dentists/dental hygienists practicing in the same geographical area where the applicant currently is practicing or teaching attesting to the applicant’s moral character, standing, and ability.

(i) The applicant must provide the Board with and official transcript with school seal from the school of dentistry/dental hygiene which issued the applicant’s professional degree or execute a request and authorization allowing the board to obtain the transcript.

(j) The applicant must be a graduate of a dental/dental hygiene school, college or educational program approved by the board.

(k) The applicant must not be the subject of any pending or final action from any hospital revoking, suspending, limiting, modifying, or interfering with any clinical or staff privileges.

(l) The applicant must not have been convicted of a felony or any misdemeanor involving moral turpitude or of any law dealing with the administering or dispensing of legend drugs, including controlled substances.

(m) The Board may consider or require other criteria including, but not limited to, any of the following:

1. Questioning.

2. Results of peer review reports from constituent dental societies or federal dental services.

3. Substance abuse testing or treatment.

4. Background checks for criminal or fraudulent activities.

5. Participation in continuing education.

6. A current certificate in cardiopulmonary resuscitation.

7. Recent case reports or oral defense of diagnosis and treatment plans.

8. Proof of no physical or psychological impairment that would adversely affect the ability to practice dentistry/dental hygiene with reasonable skill and safety.
9. Proof of professional liability coverage and that coverage has not been refused, declined, cancelled, non-renewed, or modified.

10. Whether the applicant has been subject to any final disciplinary action in any state in which the individual has been licensed which shall be verified by a query in the National Practitioner Data Bank, the Health Integrity Protection Databank, the American Association of Dental Examiners Clearing House for Disciplinary Information, any state where the applicant has been licensed, or any other pertinent bank currently existing or which may exist in the future.

11. Whether the applicant’s DEA registration or any state controlled substances permit has ever been revoked, suspended, modified, restricted, or limited in any way. Provided, however, that any discipline that results only from a failure to timely renew a registration or permit shall not prevent an applicant from being eligible for this method of licensure.

12. Denial of any professional license or denial of the opportunity to take a dental/dental hygiene exam.

(n) If all criteria and requirements are satisfied and the Board determines, after notice and hearing, that the individual committed fraud or in any way falsified any information in the application process, the Board may impose disciplinary sanctions allowed by the provisions of the Act.

(3) In addition to the requirements for applicants seeking licensure by credentials, an applicant desiring to practice a specialty only, must meet the following requirements:

(a) The specialty must be one in a branch of dentistry approved by the American Dental Association.

(b) The applicant shall meet the existing educational requirements, and standards set forth by the American Dental Association for that approved specialty.

(c) An applicant who chooses to announce or practice a specialty must limit his/her practice exclusively to the announced special area or areas of dental practice.

(4) An applicant shall submit to the board with the application, a non-refundable fee to be determined by the Board. If an applicant is granted a license, this fee includes the licensing fee for the remaining portion of the first licensing year.
(5) Regardless of the applicant’s compliance with the foregoing requirements, the Board may refuse to issue a license by credentials based on any conduct which would be a ground for discipline pursuant to Code of Ala. 1975, §34-9-19.

(6) An applicant granted a license by credentialing will be subject to the Act and all Board rules.

Chapter 270-X-2 Dental Examiners

270-X-2.20 Reporting Of Adverse Occurrences.

(1) Any dentist practicing in the State of Alabama must notify the Board of Dental Examiners of Alabama (Board) of any mortality or other adverse incident occurring during or related to a dental procedure or treatment performed by dentists or in which a dentist participated in any manner whether occurring in an office, hospital or other outpatient treatment facility within Seventy-two (72) hours of the referenced occurrence.

(2) In addition, the dentist shall submit a complete report to the Board within thirty (30) days of the referenced occurrence. For purposes of this Rule, a reportable occurrence shall include any procedure or treatment resulting in death or permanent physical or mental injury as a result of the administration of general anesthesia or sedation techniques as defined in Code of Ala. 1975, §34-9-1(10). Reportable occurrences shall also include any resulting in calling any emergency responders, initiation of CPR or utilizing cardiac defibrillation.

(3) The report references above shall include at a minimum the following:

(a) Description of the dental procedure.

(b) Description of preoperative physical condition of the patient, including vitals.
(c) List of drugs and dosages administered.

(d) Description, in detail, of techniques utilized in administering the drugs utilized.

(e) Description of the adverse occurrence.

1. Describe, in detail, symptoms of any complications to include, but not limited to, the onset and type of symptoms exhibited by the patient.

2. Treatment instituted on the patient.

Author: James S. Ward

270-X-2-.21 Oral Conscious Sedation. The following requirements shall apply to the administration in the office of oral conscious sedation by dentists:

   (1) In order for a course of training to be approved by the Board, the following shall be required:

   (a) A minimum of sixteen (16) hours of training:

   (b) The definition of oral conscious sedation and anxiety reduction (anxiolysis);

   (c) A list of oral sedative agents commonly used, their basic pharmacology and past documentation or records of use;

   (d) Coverage of medical conditions which can adversely affect the administration of oral conscious sedation and the basics of physical diagnosis to appropriately classify your patient medically;

   (e) Coverage of proper monitoring techniques for the sedated patient;
(f) An overview of the most common sedation protocols from start to finish;

(g) Proper documentation required by the dentist and dental staff; i.e., consent forms, monitoring strips, and patient information packets;

(h) An overview of potential medical emergencies specific to oral conscious sedation and their diagnosis and management;

(2) In order for an entity or organization to be approved by the Board for purposes of training in oral conscious sedation, training offered must at a minimum include the topics referenced in subsection (1) above.

(3) The emergency kit must at a minimum include the following:

(a) Epinephrine;

(b) Atropine;

(c) Narcotic antagonist (e.g., Naloxone HCL) and benzodiazepine antagonist (e.g., Flumazenil), if these agents are used;

(d) An antihistamine (e.g., Diphenhydramine HCL);

(e) Nitroglycerine;

(f) A bronchodilator (e.g., Albuterol inhaler); and

(g) An antihypoglycemic (e.g., 50% glucose).

(4) Any operatory where oral conscious sedation is administered must be of adequate size and design to permit physical access of emergency equipment and personnel and to permit effective emergency management.

(5) All allied personnel who may be involved in the monitoring of a patient who is administered oral conscious sedation shall be trained to assist the dentist in the recognition and management of the following clinical emergencies:

(a) Laryngospasm;

(b) Bronchospasm;

(c) Emesis and aspiration of vomitus;
Management of foreign bodies in the airway;

Angina pectoris;

Myocardial infarction;

Cardiopulmonary resuscitation;

Hypotension;

Hypertensive crisis;

Acute allergic reaction;

Hyperventilation syndrome;

Convulsions; and

Syncope.

In order for a patient to be appropriately monitored, the monitoring and recording of blood pressure at intervals determined by the dentist must be performed both during the administration of oral conscious sedation and any recovery period.

As to all patients who are administered oral conscious sedation, the type and amount shall be within accepted therapeutic guidelines and not dependant upon the period of duration of the procedure.

A dentist utilizing oral conscious sedation in the dental office may induce only one (1) patient at a time. A second (2nd) patient shall not be induced until the first (1st) patient is awake, alert, conscious, spontaneously breathing, has stable vital signs, is ambulatory with assistance, is under the care of a responsible adult, and that portion of the procedure requiring the participation of the dentist is complete. In an office setting where two (2) or more permit holders are present simultaneously, each may sedate one (1) patient provided that the office has the necessary staff and equipment, as set forth in this rule.

Not withstanding any of the provisions set forth above, any oral conscious sedation administered to a pediatric patient, shall be pursuant to and follow the current guidelines and recommendations for sedation of the pediatric dental patients promulgated by the American Academy of Pediatric Dentistry. Pediatric patients shall be defined as infants and children
through adolescence, including those with special health care needs.

(10) All individuals licensed to practice dentistry who intend on administering Oral Conscious Sedation shall submit an application for an Oral Conscious Sedation permit. Thereafter the renewal requirements and expiration date shall be the same as those for a dental license.

All individuals who intend on administering Oral Conscious Sedation shall file for an Oral Conscious Sedation permit prior to administering such sedation. The renewal requirements and expiration of such permit shall be the same as those for annual renewal of a dental license. Fees for such permit shall be established by the Board.

Author: Board of Dental Examiners

270-X-2-.22 Patient Records.

(1) A dentist shall maintain complete records on all patients and said records may include such information as the dentist deems appropriate but shall at a minimum include the following:

(a) Patient’s first and last name, address, and contact information; and,

(b) Current health history; and,

(c) The date treatment rendered. The type of treatment rendered. The reason for the treatment rendered and the name and/or initials of treating dentist and/or dental hygienist; and,

(d) Records of financial transactions should be retained or recorded; and,

(e) Applicable radiographs; and,

(f) Correspondence between treating dentist and any prior and subsequent dentists, physicians and/or referral sources/recommendations; and,
(g) Pathology reports.

(2) When appropriate, records may also include but not be limited to:

(a) Treatment plan(s); and,

(b) Informed consent(s).

(3) Records may be maintained in physical or digital format and may be disposed of in accordance with current American Dental Association (ADA) guidelines.

270-X-2-.23 Risk and Abuse Mitigation Strategies By Prescribing Dentists.

(1) The Board recognizes that the best available research demonstrates that the risk of adverse events occurring in patients who use controlled substances to treat pain increases as dosage increases. The Board adopts the "Morphine Milligram Equivalency" ("MME") daily standard as set out by the Centers for Disease Control and Prevention ("CDC") for calculating the morphine equivalence of opioid dosages.

(2) It is the opinion of the Board that the best practice when prescribing controlled substances for the treatment of pain shall include medically appropriate risk and abuse mitigation strategies, which will vary from patient to patient. Examples of risk and abuse mitigation strategies include, but are not limited to:

(a) Pill counts (where applicable);

(b) PDMP checks;

(c) Monitoring the patient for aberrant behavior; and/or

(d) Providing a patient with opiate risk education prior to prescribing controlled substances.
Chapter 270-X-2  
Dental Examiners

(3) The Board recognizes that all controlled substances, including but not limited to, opiates, benzodiazepines, stimulants, anticonvulsants, and sedative hypnotics, have a risk of addiction, misuse, and diversion. Dentists are expected to use risk and abuse mitigation strategies when prescribing any controlled substance. Additional care should be used by the dentist when prescribing a patient’s medications from multiple controlled substance drug classes. Chronic pain medicines are any sustained narcotic for the treatment of pain for greater than 30 days. It would be unusual for a dentist to prescribe chronic pain medicines such as buprenorphine (Suboxone), methadone, oxycodone HCL sustained release (OxyContin), or similar medications.

(4) For the purpose of preventing controlled substance diversion, abuse, misuse, addiction, and doctor-shopping, the prescribing dentist shall utilize Alabama’s Prescription Drug Monitoring Program (PDMP) to review the patient’s prescription history and shall document the use of risk and mitigation strategies under the following circumstances:

   (a) For the continuation of controlled substance therapy greater than seven (7) days for any patient;

   (b) Prior to prescribing any controlled substance of more than 50 MME/day;

   (c) For any patient that is prescribed three (3) or more acute pain medicine prescriptions by the dentist in any ninety (90) day period; or

   (d) For any patient who gives a history of chronic pain medicines and/or benzodiazepines, so that the dentist may coordinate therapy with the patient’s other prescribing medical providers and verify the specifics of the chronic medications. Due to the heightened risk of adverse events associated with the concurrent use of opioids and benzodiazepines, dentists should consider alternative forms of treatment.

(5) A violation of this rule is grounds for the suspension, restriction, or revocation of a dentist’s Controlled Substances Permit or license to practice dentistry.
