(1) Sales at retail of radio and television antennas, television satellite dishes, and parts and attachments therefor are subject to sales or use tax, whichever is applicable.

(a) Where an antenna or satellite dish, along with parts and attachments therefor, is sold for a lump sum amount which includes both the antenna or satellite dish and the cost of erection or installation, such lump sum amount shall be used as the measure of the tax to be paid to the state. In instances where separate contracts are made for the sale of the antenna or satellite dish and other property and for the erection or
installation, the tax should be measured by the sales price only, provided that the billing to the customer and the books of the seller clearly show the receipts from sales and from erection and installation.

(b) In instances where dealers in radio and television receiving sets sell antennas or satellite dishes with parts and attachments therefor which they do not themselves furnish or install, but which are furnished and installed for them by an outside supplier, the sale of antennas or satellite dishes and other property sold in connection therewith are made at wholesale, tax free, by the outside supplier to the dealer who has made the retail sale. The dealer in these instances must collect and remit tax to the state in accordance with the rule stated in subparagraph (a).

(c) Where dealers and suppliers make over-the-counter sales of antennas or satellite dishes and parts and attachments therefor to customers not for resale, such sales to consumers are subject to sales tax which is to be collected by the seller and paid to the state.

(d) The dealers and suppliers who make the sales described in subparagraphs (a), (b), and (c) above purchase at wholesale, tax free, the antennas or satellite dishes and parts and attachments therefor which are resold by them. §40-23-1(10).

sales at retail of his own tangible personal property or makes sales at retail of tangible personal property owned by others which is consigned to him for sale.

(2) For the purpose of administering the sales tax law, it is deemed that the auctioneer will have the property on consignment when he receives payment for the property sold, issues his bill of sale or invoice, and pays the owner for the property sold with his check or other remittance. An auctioneer does not become liable for sales tax when selling tangible personal property not owned by him where the owner has commissioned the auctioneer to make such sales in the name of the owner and for him and the operation of a business licensed under the sales tax law.

(3) The sales tax will apply upon the gross receipts derived from sales of all tangible personal property sold by persons regularly engaged in conducting auction sales, regardless of how such tangible personal property may have been acquired or by whom it may be owned, except the sale of tangible personal property which normally would not be subject to tax such as a wholesale sale. §40-23-1(6).

810-6-1-.08.01 Automotive Supply Jobbers, Sales By.

(1) Automotive supply jobbers shall comply with the provisions of Title 40 relative to maintaining the records necessary to determine the amount of sales or use taxes for which they are liable including the requirement that their records show separately the gross proceeds of wholesale sales and the gross proceeds of retail sales. Automotive supply jobbers shall also comply with the provisions of Sales and Use Tax Rule 810-6-4-.10 Keeping Records of Sales of Resale. (Sections 40-23-9, and 40-23-83)

(2) Automotive supply jobbers shall collect sales or use tax on sales to all customers who do not have a valid sales tax license number or certificate of exemption number. Invoices which do not show the purchaser’s name, but are made out to “cash” shall always be considered to be retail sales invoices. (Sections 40-23-26 and 40-23-67)

(3) If the purchaser has a sales tax license number, the jobber may sell to the purchaser tax exempt, provided the purchaser is buying the items for resale. Even though a purchaser has a sales tax license number, the jobber is not relieved of the responsibility of collecting tax on the items which the purchaser uses. It is the jobber’s responsibility to know the nature of the customer’s business so that the jobber will know when to collect tax on items purchased for use.

(4) Sales of automotive parts to licensed automobile dealers with repair shops or service departments are at wholesale, tax-free. Sales of automotive parts to licensed automobile dealers without repair shops or service departments are taxable unless the dealer qualified for the exemption contained in Section 40-23-1(a)(9)k for parts purchased for use in repairing or reconditioning automobiles that are a part of the dealer’s stock of goods for sale. See Rule 810-6-1-.116 Parts and Materials Used to Repair or Recondition Dealer’s Automobiles.

(5) Sales of materials to licensed automobile dealers are taxable unless the dealer qualifies for the exemption contained in Section 40-23-1(a)(9)k for materials purchased for use in repairing or reconditioning automobiles that are a part of
the dealer’s stock of goods for sale. See Rule 810-6-1-.116 Parts and Materials Used to Repair or Recondition Dealers’ Automobiles. The term “materials” as used in this section includes paint, solder, flux, body lead, wax, underseal, and tire blacking which become a part of the reconditioned automobile. The term “materials” as used in this section does not include items which do not become a part of the reconditioned automobile such as sandpaper, thinner used for cleaning purposes, masking tape, rags, brushes, tools, and soap.

(6) The automobile supply jobber shall collect sales or use tax on sales of supplies unless the customer is purchasing the supplies for resale. Supplies include but are not limited to cleaning compounds, chamois, rags, drill bits, shop files, welding gases and supplies, metal bars and rods, masking tape, fire extinguisher fluid, hydraulic jack oil, friction tape, signs, white sidewall cleaner, brooms, mops, window cleaner, rivets, tacks, cotter pins, repair parts for shop equipment, degreaser, bolts, nuts, washers, screws, oil, measures, wiping cloths, drop light cords, auto body soap, hand soap, vixen files, light bulbs, rubbing compound, floor oil absorbent compounds, brushes of all kinds, tar remover, and polishing cloths.

(7) The automotive supply jobber shall collect sales or use tax on sales of power tools, heavy tools, and equipment and replacement parts unless the customer is purchasing the tools, equipment, or replacement parts for resale. Power tools, heavy tools, and equipment and replacement parts include but are not limited to floor jacks, air compressors and parts, washing equipment and parts, painting equipment and parts, electric sanders, air hose and chucks, drop cords, and welding equipment and parts.

(8) The automotive supply jobber shall collect sales or use tax on sales of hand tools unless the customer is purchasing the tools, equipment, or replacement parts for resale. Sales of hand tools to licensed resellers who do not stock such tools for resale are taxable.

(9) The automotive supply jobber shall collect sales or use tax on sales to automobile painters or repair shops of items which lose their identity, such as paint, solder, and solvents.

(10) The measure of sales or use tax due on taxable sales of any new, used, or rebuilt automobile part, except batteries, is the net trade difference, that is the selling price
less credit for the used part taken in trade. The measure of sales or use tax due on taxable sales of batteries is the total sales price of the battery without any deduction or credit for the value of the used taken in trade (See Rule 810-6-1-.12 and 810-6-1-.180 for definitions of automotive vehicle and trailer). (Section 40-23-2(1)

(11) When automobile supply jobbers perform labor in connection with a sale of repair parts, invoices covering the transaction shall clearly show the amounts charged for each part and amounts charged for labor. Where invoices do not show parts and labor separately, sales tax is due on the total amount of the invoice.

(12) When automotive supply jobbers provide tire recapping service to a customer, they shall collect sales or use tax from the customer measured by the total amount billed for the recapping service. Materials used by the automotive supply jobber in performing the recapping service are not taxable when purchased or withdrawn by the jobber. The machines used directly in the recapping process by the automotive supply jobber are taxable at the reduced machine rate when purchased or withdrawn by the jobber. Machines and equipment not used directly in the recapping process and all materials and supplies which do not become a component part of the finished product are taxable at the general rate when purchased or withdrawn by the jobber.

(1) Sales of tangible personal property, such as automobile parts, automobile accessories, tires, batteries, etc., by automobile repair shops and garages to purchasers for use and not for resale, either separately or in connection with automobile repair work, are subject to the sales tax. Charges for labor and service performed in connection with such repair work or installations are to be included in the measure of the tax, if not separately billed to customers.
(2) When labor and service are separately billed from the sale of parts, etc., the tax does not apply to the labor and service rendered.

(3) Books must be kept in such a manner as to clearly reflect the separate sources of receipts. This tax will apply to the total gross receipts of any automobile repairers who fail to make such separation of charges on bills tendered to their customers. Materials and supplies used by automobile repair shops and garages in rendering services but which are not resold as merchandise are subject to sales tax when purchased by repairmen from the supply dealer.

(1) Upholstery repairs performed on automobile seats, top linings, and vinyl tops will be considered as repair jobs. The upholsterer must collect and report sales tax on his sales of items which do not lose their identity, such as cloth, leather, vinyl, foam rubber, and springs. (2) Materials which pass to the upholsterer's customer but which lose their identity when used by the upholsterer or which are inconsequential in amount (such as tacks, glue, thread, binding twine, webbing, gimp tape, welting, padding, stain, and varnish) are considered to have been used or consumed by the upholsterer and are taxable at the time of purchase by him.

(3) Materials which are used or consumed by the upholsterer and which do not pass to the customer are supplies and taxable when purchased by the upholsterer.

(4) Any custom items that are fabricated and sold, with or without installation, such as, but not limited to, auto seat slip covers, boat covers, and car covers will be subject to sales tax on the full sales price without any deduction for labor or service. (1) A courtesy delivery for an out-of-state automobile dealer occurs when the out-of-state dealer sells an automobile to a customer and arranges for the vehicle to be shipped to an in-state dealer for delivery to a designated person in Alabama. The in-state dealer performs the customary dealer preparation on the vehicle and receives reimbursement for these services. The out-of-state dealer, not the in-state dealer, invoices the customer for the sale of the vehicle.

(2) An Alabama dealer who makes a courtesy delivery of an automotive vehicle in Alabama for an out-of-state dealer is not the seller of the vehicle and would not be liable for Alabama sales tax on the transaction. Such courtesy deliveries should not be included in the measure of sales tax reported by the Alabama dealer.

(3) The out-of-state seller for whom a courtesy delivery is made by an Alabama dealer is the seller of the automotive vehicle.

(4) The out-of-state seller referenced in (3) above is not liable to collect and remit sellers use tax on sales of automotive vehicles required to be registered or licensed with the judge of probate of any county in Alabama. Instead, the purchaser of the automotive vehicle must remit the tax levied in §40-23-102, Code of Ala. 1975, to the county licensing official in accordance with Section 40-23-104.

810-6-1-.27 Building Materials.

(1) The courts of this state and other states have generally held that contractors and builders do not sell the building materials they use and that sales to them are taxable under sales and use tax laws. The courts have stated:

(a) "It would seem that the business done by building contractors generally has been considered to, be rendering service rather than selling materials at retail to the owner of the building or land. As to what amounts to a sale at retail within sales tax acts the statutes and the courts seem to endeavor to lay the tax on the last sale before the use or consumption of the goods or articles sold." (State Board of Equalization v. Stanolind Oil and Gas Company, Wyoming.)

(b) "A contractor who buys building material is not one who buys and sells - a trader. He is not a dealer, or one who habitually and constantly, as a business, deals in and sells any given commodity. He does not sell lime and cement and nails and lumber. Sales to contractors are sales to consumers." (State v. J. Watts Kearny & Sons, Louisiana.)

(c) "Under the contracts before us in the case, plaintiffs agreed to build sewers and buildings requiring the use of sand, gravel, cement and steel. They were the persons using these materials, even though after their metamorphosis they became part of a structure whose title vested in the Sanitary District of Chicago. Under these circumstances it would be unreasonable to characterize the transfer of the materials incorporated in the completed structures as a sale." (Heraldy Mid-Continent Company v. Nudelman, Illinois.)

(2) Building materials when purchased by builders, contractors or landowners for use in adding to, repairing, or altering real property are subject to either the sales or use tax at the time of purchase by such builder, contractor, or landowner. Building materials as used in the sales or use tax laws includes any material used in making repairs, alterations, or additions to real property. "Builders," "contractors," and
"landowners," mean and include any person, firm, association, or corporation making repairs, alterations or additions to real property. The term "building materials" includes such tangible personal property as lumber, timber, nails, screws, bolts, structural steel, reinforcing steel, cement, lime, sand, gravel, slag, stone, telephone poles, fencing, wire, electric cable, brick, tile, glass, plumbing supplies, plumbing fixtures, pipe, pipe fittings, electrical fixtures, built-in cabinets, sheetmetal, paint, roofing materials, road building materials, sprinkler systems, air conditioning systems, built-in fans, heating systems, flooring, floor furnaces, crane ways, crossties, railroad rails, railroad track accessories, tanks, builders hardware, doors, door frames, windows, window frames, water meters, gas meters, well pumps and any and all other tangible personal property which becomes a part of real property.

(3) None of the kinds of property designated as "building materials" is to be classified as machines or parts or attachments for machines except such items as can be identified at the time of purchase as a part or an attachment for a machine used in manufacturing, designed and manufactured for such use, customarily so used, and necessary to the operation of the completed machine. Such bulk items as lumber, random or stock length structural steel, brick, paint, and common nails do not come within the classification. Such items as prefabricated processing tanks, steam boilers, and steel when purchased prefabricated to special design for a machine part do come within the machine rate. When the landowner or contractor purchases the materials from which he may make a boiler or tank, he must pay tax to the seller or direct to the state, as the case may be. 810-6-1-.28 Building Materials Defined.

(1) The term "building materials," as used in the Alabama sales and use tax laws, means all tangible personal property, including any device or appliance vised by builders, contractors, or landowners in making improvements, additions, alteration or repair to real property in such a way that such...
tangible personal property becomes identified with a part of realty.

(2) A device or appliance becomes a fixture and a part of the real property to which it is connected when it is built into or is attached to a structure in such a way that its removal would substantially damage or deface such structure.

(3) Where the removal of the device or appliance would not substantially damage or deface the structure to which it is connected the following factors shall be considered:

(a) Actual connection with or attachment to real property. To become a part of real property, the device or appliance must have some physical connections such as: by bolts, screws, nails, cement piping, or cable; by contact, where by reason of great weight or bulk, no additional attachment is required; by contact, where the device or appliance is necessary to make complete or useable something which is real property; by attachment to another device or appliance which has become a part of real property.

(b) Appropriateness to the use or purpose of the real property to which connected. The use or purpose of the device or appliance must become an element of the use or purpose of the real property to which it is connected.

(4) This rule is not intended to apply to cook stoves, refrigerators, washing machines, and portable heaters, acquired for the personal use of householders or tenants which may be removed without material damage to the buildings in which they are used. §40-23-1(10).

810-6-1-.29 Building Materials Manufactured By Contractors.

(1) §40-23-1(b) provides that the use of building materials in the performance of a contract by a person who manufactures them is equivalent to making a retail sale of such materials and that such use must be reported by such person as subject to sales tax to be measured by the reasonable and fair market value at the time and place where used.
(2) Where the contractor-manufacturer also sells the same kind of materials to others for installation by them, the reasonable and fair market value would be the same as the sales price. Where no such sales are made by the contractor-manufacturer, the sales price of the same kind of materials when sold by other manufacturers during the same period and under the same circumstances would be the reasonable and fair market value.

(3) Where no sales price can be found to be used as the measure of the tax, the following formula should be used:

(a) Manufactured cost of materials, plus transportation to job site, plus proportionate part of general overhead, selling cost, and profit equals reasonable and fair market value of materials.

(4) §40-23-1(b) applies to fabricated or manufactured items of tangible personal property permanently attached to real property when the components are prefabricated into a standard item at the shop, plant, or mill of the manufacturing contractor. This subsection does not apply when the materials are cut and fitted on the job site for attachment as construction progresses or to items prefabricated to job specifications at the shop, plant, or mill of the manufacturing contractor.

(5) The courts of this state have held that the manufacturing contractor provision of the Sales Tax Law does not apply when a contractor manufactures an item to specifications for a special job. To come within §40-23-1(b), the item manufactured must be standard, that is, it can be used on any job. (Amended August 16, 1974.) §40-23-1(b).

(6) Where the contractor is the manufacturer or compounding of ready-mix concrete or asphalt plant mix used in the performance of a contract, whether the ready-mix concrete or asphalt plant mix is manufactured or compounded at the job site or at a fixed or permanent plant location, the tax applies only to the cost of the ingredients that become a component part of the ready-mix concrete or the asphalt plant mix. §40-23-1(b).

810-6-1-.30 Carpeting And Other Floor Coverings.

(1) The term "floor coverings" as used in this rule shall include carpet, carpet tile, rugs, mats, carpet padding, linoleum and vinyl roll floor covering, linoleum tile, vinyl tile, and similar materials. Floor coverings may be installed as the initial finished floor covering in new construction or as an addition to, or a replacement for, an existing floor covering. Floor coverings may be installed in a manner so as to become a permanent attachment to realty or may be laid on finished floors in a manner that it remains tangible personal property.

(2) Persons who contract to furnish and install floor coverings, which are shaped to fit a particular room or area and which are attached to the supporting floor with cement, tacks, or by some other method making a permanent attachment to real property, are contractors and the floor coverings they use in performing the contract are considered to be building materials. Sales of floor coverings to persons who use them in performing contracts to make additions or improvements to realty are retail sales subject to sales or use tax. See Rule 810-6-1-.46 entitled Contractor’s Liability (Sections 40-23-1(a)(10) and 40-23-60(5), Code of Ala. 1975).

(3) Persons who are both selling floor coverings which they do not attach to realty as well as contracting with customers to furnish and install floor coverings that become a part of realty shall purchase all floor coverings at wholesale and thereafter collect and remit sales or use tax to the Department of Revenue on their retail sales of floor coverings which they do not attach to realty for the customer and compute and pay sales tax to the Department of Revenue on the floor coverings which they withdraw from inventory for use in performing "furnish and install" contracts. State and local sales taxes are due on withdrawals at the time and place of the withdrawal of the materials from inventory and shall be computed on the cost of the materials to the person making the withdrawal. Sales tax is due on withdrawals from instate inventory regardless of whether the floor covering materials are withdrawn for use in performing contracts inside or outside Alabama. The sales taxes applicable to withdrawals are those taxes applicable in the jurisdiction where the withdrawal occurs not where the materials are attached to realty. See Rule 810-6-1-.56 entitled Dual Business and Rule 810-6-1-.196 entitled Withdrawals from
Inventory. (Sections 40-23-1(a)(10) and 40-23-60(5), Code of Ala. 1975).

(4) Sales of floor coverings to the federal government, the State of Alabama, counties and municipalities of the State of Alabama, their instrumentalities, or other exempt entities are not taxable when the floor covering sold to the exempt entity is installed by the exempt entity or by someone other than the seller who is hired by the exempt entity. See Rule 810-6-1-.46 entitled Contractor’s Liability regarding the application of sales or use tax to floor coverings both sold and installed by the seller. (Sections 40-23-4(a)(11), 40-23-4(a)(15), 40-23-4(a)(17), 40-23-62(2), 40-23-62(13), and 40-23-62(16), Code of Ala. 1975).

(5) Sales of floor coverings which are not attached to realty but which are simply laid on finished floors are retail sales to the building owner or occupant. The seller shall collect sales or use tax on retail sales to nonexempt entities measured by the total gross proceeds of the sale without any deduction for services incidental to the sale such as trimming, joining, binding, or delivering. (Sections 40-23-1(a)(6), 40-23-1(a)(8), 40-23-26, 40-23-60(10), and 40-23-67, Code of Ala. 1975).

(6) Floor covering samples sold to dealers to be used by the dealer for demonstration or display purposes, and not for resale in the regular course of business, are retail sales subject to sales or use tax. All samples bound in sample books and all samples having holes with metal fasteners inserted shall be considered "not purchased for resale" by the dealer unless the dealer is in the business of reselling floor covering samples. Dealers who do purchase floor covering samples for resale in the regular course of business may purchase the samples tax-free and use them for demonstration or display purposes prior to selling them. (Sections 40-23-1(a)(10) and 40-23-60(5), Code of Ala. 1975).

810-6-1-.36  **Commercial Fish Feed.**

(1) Sales of commercial fish feed including concentrates, supplements and other feed ingredients when such substances are used as ingredients in mixing and preparing feed for fish raised to be sold on a commercial basis are exempt from the sales and use taxes. (§40-23-4(a)(21))

(2) The gross proceeds of the sales of all antibiotics, hormones, and hormone preparations, drugs, medicines, and other medications including serums and vaccines, vitamins, minerals, or other nutrients for use in the production and growing of fish by whomsoever sold are exempt from sales and use taxes. (§§40-23-4(a)(29) and 40-23-62(29))
810-6-1-.37 Computer Hardware And Software.

(1) Computers and related equipment, also known as computer hardware, consist of components and accessories that make up the physical computer assembly. The retail sale of computer hardware is subject to sales or use tax. The rental of computer hardware is subject to rental tax.

(2) The term “computer software” as used in this regulation shall mean a sequence of automatic data-processing equipment instructions necessary to solve a problem, and includes both system and application programs and subdivisions, such as assemblers, compilers, routines, generators and utilities.

(3) The term “canned computer software” as used in this regulation shall mean software programs prepared, held, or existing for general or repeated use, including software programs developed in-house and subsequently held or offered for sale or lease. Canned computer software includes all software, except custom software programming, regardless of its function and regardless of whether it is transferred to the purchaser in physical form, via telephone lines, or by another alternative form of transmission.

(4) Canned computer software is tangible personal property; and, on and after March 1, 1997, the retail sale or rental of canned computer software is subject to the sales, use, or rental tax, whether such transaction was affected by a transfer of title, or of possession of both, or a license to use or consume. Unless specifically stated otherwise, the licensing of canned computer software is considered a retail sale, and not rental, and is subject to sales or use tax. The measure of tax upon which the sales, use, or rental tax is to be computed is the total amount received from the sale or rental of canned computer software to the customer. Wal-Mart Stores, Inc. v. City of Mobile and County of Mobile, Alabama Supreme Court, decided September 13, 1996, substitute opinion released November 27, 1996.
The term “custom software programming” as used in this regulation shall mean software programs created specifically for one user and prepared to the special order of that user. The term “custom software programming” also includes programs that contain pre-existing routines, utilities, or other program components that are integrated in a unique way to the specifications of a specific purchaser. Custom software programming also includes those services represented by separately stated charges for modifications to a canned computer software program when such modifications are prepared to the special order of the customer. Modification to a canned computer software program to meet the customer’s needs in custom software programming only to the extent of the modification. Custom software programming is not subject to tax regardless of the manner or medium of transfer to the customer since the charge for the custom software programming is a charge for professional services and the manner or medium of transfer is considered incidental to the sale of the service.

The provider of custom software programming would owe sales and/or use tax on the cost of the tangible medium for transferring the custom software programming to the customer. Such tangible mediums would include tapes, cards, discs, compact discs, and any other tangible personal property used in transferring custom software programming to the customer.

The term “software maintenance agreement/contract” as used in this regulation shall mean contracts sold in connection with the sale or rental of canned software and can include any, all, or a combination of the following: technical consultation (support) services either by telephone or on-site visits, corrections of errors or malfunctions (bugs) in the canned software, provisions for enhancements (software upgrades) to the canned software, revisions to operating manuals for the canned software, and training services. If the maintenance contract is required as a condition of the sale or rental of canned software, the gross sales price or gross rental price is subject to tax whether or not the charge for the maintenance contract is separately stated from the charge for the canned software. If the maintenance contract is optional to the purchaser of the canned software, then only the portion of the contract fee representing enhancements or upgrades and new operating manuals is subject to tax provided the fees for consultation or support services, error corrections, and training services are separately stated and such separate statement is not used as a means of avoiding imposition.
of tax upon the actual gross receipts from the furnishing of upgrades or manuals. If these fees are not separately stated, the entire charge for the maintenance contract is subject to tax. If the maintenance contract is optional to the lessee of the canned software, the rental tax will not apply to the gross receipts derived therefrom.

(8) Maintenance contracts sold in connection with custom software programming, whether required or optional, or whether or not separately stated, are not subject to tax. The provider of the custom software programming is the consumer of any tangible personal property used in producing operating manuals and would owe sales or use tax on the cost of these items.

810-6-1-.45 Contractors Furnishing And Erecting Building Materials Under Contract With The United States.
(1) Sections 40-23-4(a)(17) and 40-23-62(2) specifically exempt the United States government from paying sales or use tax on its purchases of tangible personal property. These exemptions, however, do not apply to purchases by a contractor where the contractor has a construction contract with the United States government to furnish all materials and labor for use in the performance of the contract. The contractor is the consumer of all the materials which the contractor purchases and uses in the performance of the construction contract and which become a part of real property. The United States Supreme Court in State of Alabama v. King & Boozer, 314 U.S. 1, 62 S.Ct. 43 (1941), and in Curry v. U.S., et al., 314 U.S. 1, 62 S.Ct. 48, held that the Alabama sales and use taxes on building materials used by building contractors for the United States government were due by such contractors even though the costs of such taxes were passed on to the United States government. The court held that these taxes were levied on the contractors and not on the United States. Sections 40-23-1(a)(10) and 40-23-60(5))

810-6-1-.46 Contractor's Liability.

(1) Contractors or builders must pay either to the seller or directly to the Department of Revenue sales or use tax on the following:

(a) All of the materials, equipment, tools, and supplies which they use or consume in the operation of their business and

(b) All building materials attached by them to real property except property qualifying for a specific exemption. See Rule 810-6-1-.27 entitled Building Materials.

(2) Prior to January 1, 2014, contractors or builders may not claim any immunity or exemption from the sales or use tax laws on account of property purchased and used in connection with contracts with the state, county, or city.
governments. (Lone Star Cement Corporation v. State, Curry v. U.S. et al., 314 U.S. 1, 62 S.Ct. 48 and State v. King & Boozer, 314 U.S. 1, 62 S.Ct. 43 (1941)). (Sections 40-23-1(a)(10) and 40-23-60(5))

(3) On and after January 1, 2014, the sale to, or the storage, use, or consumption by, any contractor or subcontractor of any tangible personal property to be incorporated into realty pursuant to a contract awarded on or after January 1, 2014, with a governmental entity, as defined in Rule 810-6-3-.77 entitled Exemption of Certain Purchases by Contractors and Subcontractors in conjunction with Construction Contracts with Certain Governmental Entities, is exempt from all state, county, and municipal sales and use taxes provided the contractor or subcontractor has complied with all provisions of said rule.

(4) Courts in this State have held that the contractor provision provided in Section 40-23-1(a)(10) applies if the following criteria are met: (i) the taxpayer must be a contractor; (ii) the materials must be building materials; and (iii) the materials must become a part of the real estate. See Department of Revenue v. James A. Head & Co., 306 So.2d 5 (Ala. Civ. App.1974), cert. denied 306 So.2d 12 (1975).

(5) It has also been determined that the taxpayer was a contractor even though actual installation was performed by a third party:

(a) ...the ‘contractor’ provision also applied to those materials provided by the taxpayer, but installed by the electrical contractors, citing Montgomery Woodworks. “The Court’s holding in Montgomery Woodworks illustrates, however, that actual installation by the taxpayer is not required.” Hunter Security, Inc. v. State of Alabama, Docket S. 05-1309, 5.

(b) “Therefore, the failure of the taxpayer to actually install the cabinets after they have been fabricated does not prevent the taxpayer from being a ‘contractor’ within the meaning of §40-23-1(a)(10).” State of Alabama v. Montgomery Woodworks, Inc., 389 So.2d 512 (Ala. Civ. App. 1980)

810-6-1-.46.01  Bleacher Systems, Lockers, Backstops, And Other Fixtures Installed In Gymnasiums.

(1) Materials or fixtures which are purchased by contractors and are intended to become permanently affixed or attached to gymnasiums, or other realty, are “building materials” and are taxable at the time of purchase by the contractor. (See Rule 810-6-1-.27 and 810-6-1-.28) (Section 40-23-1(a)(10) and 40-23-60(5)).

(a) Prior to January 1, 2014, these purchases are taxable even when the materials are used by the contractor in furnish and install contracts with tax-exempt governmental entities and tax-exempt educational institutions. A contractor that sells the materials to a tax-exempt entity under one contract and affixes the materials to realty under a second contract with the same tax-exempt entity is liable for sales or use tax; the fact that the materials are sold and installed under separate contracts does not qualify the contractor’s purchase of materials for the sales or use tax exemption found in Sections 40-23-4(a)(11), 40-23-4(a)(15), 40-23-4(a)(17), 40-23-62(2), 40-23-62(13), and 40-23-62(16). (State of Alabama v. Algernon Blair Industrial Contractors, Inc., 362 So. 2d 248 (Ala. Civ. App. 1978) and Alabama Precast Products, Inc. v. Charles A. Boswell, 357 So. 2d 985 (Ala. 1978)). On and after January 1, 2014, however, purchases by contractors which do not qualify for the exemptions in Sections 40-23-4(a)(11), 40-23-4(a)(15), 40-23-4(a)(17), 40-23-62(2), 40-23-62(13), and 40-23-62(16) may qualify for the sales and use tax exemption outlined in paragraph (1)(b) below. (See Rules 810-6-3-69.02).

(b) On and after January 1, 2014, the sale of materials or fixtures to, or the storage, use, or consumption of materials or fixtures by, any contractor or subcontractor to be permanently affixed or attached to gymnasiums or other realty pursuant to a contract awarded on or after January 1, 2014, with a governmental entity, as defined in Rule 810-6-3-.77 entitled Exemption of Certain Purchases by Contractors and Subcontractors in Conjunction with Construction Contracts with Certain Governmental Entities, is exempt from state, county, and
municipal sales and use taxes provided the contractor or subcontractor has complied with all provisions of said rule.

(2) Criteria used in determining whether materials furnished and installed in gymnasiums, or other realty, become additions to real property include but are not limited to the following: the materials are physically attached to the realty with bolts; the materials when attached are intended to be permanent and are easily identified with a part of the realty; and the materials are appropriate to the realty to which they are attached - that is the materials or fixtures perform a function appropriate to the real property and such function is necessary or convenient to the normal and appropriate uses of the real property. Examples of these items include but are not limited to the following; wall-attached telescopic bleacher systems, reverse-fold telescopic bleacher systems, lockers, and basketball backstops.

(3) Materials which (i) are not intended to become permanently affixed or attached to gymnasiums, or other realty, (ii) are intended to be mobile, and (iii) do, in fact, retain their identity as tangible personal property; qualify for the sales or use tax exemption found in Sections 40-23-4(a)(11), 40-23-4(a)(15), 40-23-4(a)(17), 40-23-62(2), 40-23-62(13), and 40-23-62(16) when sold to tax-exempt governmental entities or tax-exempt educational institutions. These items are subject to sales or use tax when sold to nonexempt entities. Criteria used in determining whether materials remain tangible personal property include but are not limited to the following; the materials are not intended to become permanently affixed to realty; the materials can be easily moved from one location to another, and can even be stored out of sight or moved from building to building. An example of an item of this nature includes, but is not limited to, a mobile telescopic bleacher system.

810-6-1-.50  **Dentists, Dental Laboratories, And Dental Supply Houses.**

(1) Dentists or dental laboratories primarily render professional services and incidentally use tangible personal property in connection therewith. The courts have ruled that dentists are not selling dentures and other prosthetic devices when they transfer such items to their patients, and in-state or out-of-state dental laboratories are not making retail sales when they transfer the finished dental appliances to dentists. Consequently, gross receipts of dentist or dental laboratories derived from these sources are not subject to the sales tax. Rather, dentists and dental laboratories are using or consuming the items incidental to performing their professional services, and are required to pay state and local sales or use tax at the time of purchase on all tangible personal property purchased at

Supp. 6/30/19  6-1-43
retail for use in the practice of their profession. Dentists and
dental laboratories purchasing machinery, equipment, fixtures,
supplies and other tangible personal property from out-of-state
dental supply houses and other vendors who fail to collect and
remit Alabama tax on such items sold at retail, would
subsequently owe use tax when they use or consume the personal
property in Alabama as part of their professional services.
(Haden v. McCarty, 152 So. 2d 141 (Ala. 1963), and Hamm v.
Proctor, 198 So. 2d 782 (Ala. 1967)).

(2) Dental supply houses within or without Alabama
engaged in the business of selling tangible personal property
such as platinum, gold, silver or cement for fillings, artificial
teeth or other such materials to dentists or dental laboratories
for use in the performance of such professional services are
making sales at retail within the Sales and Use Tax. This is
true whether dental supply houses sell materials to a dentist
whose services are rendered directly to a patient, or to a dental
laboratory that uses them in producing plates, bridge-work,
artificial teeth or prosthetic devices on prescription of a
dentist, who then uses the latter items in connection with
rendering dental services. Dental supply houses likewise make
retail sales of dental chairs, motors, instruments, drilling
machines, fixtures and other such items of tangible personal
property for use by dentists or dental laboratories. Dental
supply houses within Alabama and those located outside Alabama
that have nexus with Alabama and its municipalities and counties
are required to collect and remit the state and local sales or
use tax on their retail sales.

810-6-1-.51 Deposit On Bottles.

(1) Where a retailer sells bottled drinks and the
sales price includes the deposit on the bottles and sales tax is
charged on the total sales price, the amount of the deposit which
is refunded on the return of the empty bottles is not subject to
sales tax and may be deducted from the gross proceeds of sales
where the retailer refunds the deposit on the bottles and also
refunds the sales tax previously collected on the deposit for the bottles.

(2) Where such retailer refunds the deposit on the bottles and at the same time does not refund the sales tax previously collected on the deposit for the bottles, he may not deduct from the gross proceeds of sales the amount of the deposit so refunded and the full sales price of the bottled drinks is to be included in the gross proceeds of sales and the tax collected must be remitted to the state.

810-6-1-.52 Direct Mail Advertising, Printer's Liability.

(1) Alabama sales or use tax is due as follows on sales of printed matter by printers who are required, as part of the sales agreement, to mail the printed matter to address located within Alabama that appear on a list furnished to or provided by the printer:

(a) The printer is located outside Alabama. The mailing list contains addresses located within Alabama and addresses located outside Alabama. Use tax is due on the printed matter sent to addresses within Alabama.

(b) The printer is located within Alabama. The mailing list contains addresses located within Alabama and addresses located outside Alabama. Sales tax is due on the printed matter sent to addresses within Alabama. Sales tax is not due of the printed matter addressed to locations outside Alabama since these sales qualify for exemption as sales in interstate commerce.

(2) The postage paid by the printer to the U.S. Postal Service would not be included in the measure of tax if billed by the printer to the customer as a separate charge and paid by the customer.

810-6-1-.56 Dual Business.

(1) The term “dual business” as used in this rule shall mean a business which both makes retail sales of tangible personal property to the public on a recurring basis and
withdraws tangible personal property for use from the same stock of goods.

(2) Dual businesses in Alabama shall obtain a sales tax license and purchase all of the items they sell and withdraw for use at wholesale, tax-exempt. These businesses shall collect sales tax on their retail sales to nonexempt customers and compute sales tax on items which they withdraw from stock for use. The taxes collected on their sales to nonexempt customers and the taxes computed on their withdrawals shall be reported on their sales tax returns and remitted to the Department of Revenue. State and local sales taxes are due on withdrawals at the time and place of the withdrawal from inventory and shall be computed on the cost of the property to the business making the withdrawal. The sales taxes applicable to withdrawals are those taxes applicable in the jurisdiction where the withdrawal occurs. (Sections 40-23-1(a)(9), 40-23-1(a)(10), and 40-23-6, Code of Ala. 1975).

(3) To qualify as a dual business, the business must have a substantial number of retail sales. Contractors, plumbers, repairmen, and others who make isolated or accommodation sales and who have not set themselves up as being engaged in selling do not qualify as a dual business. Where only isolated sales are made, tax should be paid on all of the taxable property purchased with no sales tax return being required of the seller making such isolated or "accommodation" sales. (Section 40-23-1(a)(10), Code of Ala. 1975).

(4) A dual business operation shall maintain records sufficient to allow a determination of the proper sales taxes due on sales and withdrawals. (Sections 40-2A-7(a)(1) and 40-23-9, Code of Ala. 1975)

810-6-1-.58  Electrical Supplies And Equipment Sold To Contractors And Manufacturers.

(1)  Electrical supplies including wire, cable, clamps, outlet fixtures, conduit, and switches are building materials which come under the building materials provisions of Sections 40-23-1(a)(10) and 40-23-60(5). Except as outlined in paragraph (2), electrical supplies are taxable at the general rate of sales or use tax upon the sale to, or use by, the person affixing them to real property, whether that person is a contractor, builder, manufacturer, or any other property owner. (Sections 40-23-1(a)(10), 40-23-2(1), 40-23-60(5), and 40-23-61(a)).

(2)  Whether sold to a contractor or directly to the manufacturer, electrical equipment used by manufacturers is taxable at the reduced machine rate of sales or use tax when it is (i) made or manufactured for use on, (ii) necessary to the operation of, and (iii) customarily used as a part of or an attachment to a machine used in manufacturing.

(a)  The expressions “made or manufactured for use on,” “necessary to the operation of,” and “customarily used” are understood to mean that the part or attachment must be purchased substantially in the form in which it will be used by the manufacturer except for the usual and customary adjustments; that it is a standard part or attachment customarily used; and, further, that the machine or machinery on which it is used would not do the work for which designed if it were not so used. This includes all parts and attachments without which the machine would not do any work. In addition, it includes parts and attachments designed to increase the efficiency of the machine.

(b)  Items of electrical equipment including starters, switches, and circuit breakers which become a part of or an attachment to a machine used in manufacturing are taxed at the reduced machine rate of sales or use tax. This equipment must either be attached directly to the machine or be immediately adjacent to the machine in order to qualify for the reduced machine rate. (Sections 40-23-2(3) and 40-23-61(b)).
(3) Switchboards, control boards and cabinets controlling the general electrical supply system are not considered to be parts or attachments of machines used in manufacturing. The general rule is that the switch which is the direct control for the machine takes the machine rate and all equipment to that point is taxable at the general rate. (1) The dispensing or transferring of ophthalmic materials, including lenses, frames, eyeglasses, contact lenses, and other therapeutic optic devices, by opticians, optometrists, or ophthalmologists are retail sales subject to sales tax. Such
sales are taxable when sold to the ultimate consumer regardless of whether the optician, optometrist or ophthalmologist manufactured the materials for sale or purchased them for resale.

(2) When a licensed optometrist or ophthalmologist exercises professional skills in examining the eyes of a patient and prescribes eyeglasses, contact lenses, or some other ophthalmic material which the optometrist or ophthalmologist dispenses or transfers to that patient, the optometrist or ophthalmologist may separately state the charges for the ophthalmic materials and the charges for the professional services, including dispensing fees or fitting fees, on the invoice to the patient and collect sales tax only on the separately stated charges for the ophthalmic materials which were dispensed or transferred to the patient, provided the optometrist or ophthalmologist also maintains records which clearly reflect the separate sources of receipts. In the absence of separately stated charges for materials and professional services on the invoices to patients and the maintenance of documentation in the records of the business, the tax shall apply to the total amount billed to the patient. (Section 40-23-1(d))

(3) When the ophthalmic materials are purchased by a consumer covered by a third-party benefit plan, including Medicare, the sales tax shall be applicable to the amount that the ophthalmologist, optometrist, or optician is reimbursed by the third-party benefit plan plus the amount that the consumer pays to the ophthalmologist, optometrist, or optician at the time of the sale. 810-6-1-.66 Fencing.

(1) Fencing materials of all kinds including fence posts, fence wire, and fence accessories are building materials, the sales of which are at retail and subject to tax when made to the person who will attach the fencing materials to real property. Where the person who makes the installation is the manufacturer of the materials used, such manufacturer owes sales tax to be measured by the fair market value of the materials laid down at the job site. The manufacturer is required by the sales tax law to report his use of such materials and pay tax thereon as if he had made a retail sale of the materials. Any fencing materials installed by the manufacturer not manufactured by him are taxed in the usual manner.

(2) In case a vendor or manufacturer of fencing materials is both selling such materials to others for installation by them and furnishing and installing the materials under contract all purchases of fencing materials are at wholesale, tax free. Thereafter both sales to others and withdrawals for use under installation contracts are to be reported as taxable sales to the Department of Revenue.

810-6-1-.67 Florists, Telegraphic Orders. When florists sell through a telegraphic delivery association the following rules will apply:

(a) Alabama florists are liable for sales tax measured by total receipts resulting from orders taken by them for transmittal to a second florist who makes delivery either within or without Alabama. Any expense of making the sale is to be included in the measure of the tax regardless of whether or not the expense is billed as a separate item.

(b) Sales tax does not apply to amounts received by Alabama florists who make deliveries in this state pursuant to telegraphed or telephoned instructions received from florists either within or without Alabama.

Author: Patricia Estes

810-6-1-.69 Containers, Components Of Containers, Labels, Pallets, And Shipping Supplies.

(1) The term “label” as used in Sections 40-23-1(a)(9)b, 40-23-1(a)(9)c, 40-23-60(4)b, and 40-23-60(4)c, Code of Ala. 1975, and in this rule shall mean a tag or sticker of any material imprinted with information. The term “label” includes price stickers, address stickers, and shipping tags as
well as those tags or stickers which identify or describe the property to which they are attached.

(2) The term “components of containers” as used in this rule shall include partitions, cellophane, tissue paper, excelsior, gummed tape, scotch tape, glue, steel straps, twine, string, wire staples, wax paper, and wrapping paper which are used in and on containers to shape, form, preserve, stabilize, or protect the contents of the containers and which accompany the container and the container’s contents upon shipment and delivery to the customer.

(3) The term “container” as used in this rule shall mean articles in or on which tangible personal property is placed for shipment and delivery to the purchaser. Containers include bags, barrels, baskets, bottles, boxes, cans, cartons, cores, crates, cups, cylinders, drums, kegs, pails, plates, reels, sacks, and spools.

(4) Containers purchased by manufacturers or compounders for use in packaging products manufactured or compounded by them for sale, including the components of the containers, are not subject to sales or use tax where such containers are passed on to the purchaser of the products contained therein with no intention on the part of either the purchaser or the seller to return the containers or have them returned for reuse. (Sections 40-23-1(a)(9)b and 40-23-60(4)b).

(a) This exclusion for manufacturers and compounders may apply to both inner and outer containers. Accordingly, when manufacturers or compounders place their manufactured or compounded products in cans or bottles and place the cans or bottles in fiber boxes for shipment to the customer; the cans or bottles and the fiber box qualify for the exclusion if both are intended for one-time use. Alabama-Georgia Syrup Co. v. State, 253 Ala. 49, 42 So. 2d 796 (1949).

(b) Containers, when purchased by manufacturers or compounders for use in purchasing and storing product ingredients prior to using them as ingredients in the manufacturing or compounding process and not purchased for use as one-time-use containers for shipping the manufactured or compounded product to customers, do not qualify for the exclusion. Alabama-Georgia Syrup Co. v. State, 253 Ala. 49, 42 So. 2d 796 (1949).

(5) Containers purchased by retailers for use in packaging products for sale, including the components of the
containers, are not subject to sales or use tax where the containers are passed on to the purchaser of the products contained therein with no intention on the part of either the purchaser or the seller to return the containers or have them returned for reuse. (Sections 40-23-1(a)(9)c and 40-23-60(4)c).

(6) Containers and other packaging materials or supplies which are used or consumed in rendering nontaxable services are taxable when purchased by the person who performs the service even when the containers, materials, or supplies are transferred to the purchaser’s customer. For example, the operator of a laundry or dry-cleaning establishment is the user or consumer of laundry bags, garment bags, and other packaging materials or supplies and must remit sales or use tax on purchases of these items even though the bags, materials, or supplies may be transferred to the operator’s customer.

(7) Unless excluded by statute, containers, including the components of the containers, which are intended to be returned or repurchased for reuse are subject to sales or use tax. Sales of the following items are specifically excluded from sales or use tax regardless of whether there is an intent on the part of the purchaser or the purchaser’s customer to return the containers or have them returned for reuse:

(a) Sales of containers to persons engaged in selling, supplying, or furnishing baby chicks to growers where the containers are for use in the delivery of the baby chicks to the grower. (Sections 40-23-1(a)(9)f and 40-23-60(4)f).

(b) Sales of egg crates and egg cartons to egg producers for use in the delivery of eggs to distributors or packers. (Sections 40-23-1(a)(9)f and 40-23-60(4)f).

(c) Sales of bagging and ties for use in preparing cotton for market. (Sections 40-23-1(a)(9)g and 40-23-60(4)g).

(d) Sales of wrapping paper and other wrapping materials to producers, processors, packers, or wholesale or retail sellers of poultry or poultry products for use in preparing poultry or poultry products for delivery, shipment, or sale. This exemption includes (i) pallets used in shipping poultry and eggs, (ii) paper, and (iii) other materials used to line boxes or other containers in which poultry or poultry products are packed together with any other materials including ice placed in the containers for the delivery, shipment, or sale.
of poultry or poultry products. (Sections 40-23-4(a)(20) and 40-23-62(21)).

(8) Labels are purchased at wholesale, tax-free when (i) the label is purchased by a manufacturer or compounder and affixed to the tangible personal property or product which the manufacturer or compounder manufacturers of compounds for sale or to the furnished container thereof or (ii) the label is purchased to be affixed to one-time-use containers that are purchased without contents and sold or furnished to the purchaser’s customer along with the contents placed therein or thereon for sale. (Sections 40-23-1(a)(9)b, 40-23-1(a)9c, 40-23-60(4)b, and 40-23-60(4)c).

(9) Pallets purchased without contents by persons who sell or furnish the pallets along with the contents placed on the pallets for sale are excluded from sales or use tax where the pallets are passed on to the purchaser of the products contained thereon with no intention on the part of either the purchaser or the seller to return the pallets or have them returned for reuse. (Sections 40-23-1(a)(9)d and 40-23-60(4)d).

(10) Crowns, caps, and tops sold to manufacturers or compounders for use upon containers in which the manufacturer or compounder markets its products are excluded from sales or use tax when the crowns, caps, or tops are intended for one-time use only. (Sections 40-23-1(a)(9)e and 40-23-60(4)e).

(11) Except for supplies which qualify for the exemptions contained in Section 40-23-4(a)(10), 40-23-4(a)(40), 40-23-4(a)(42)c, 40-23-62(12), 40-23-62(32), and 40-23-62(34)c, shipping supplies such as nails, lumber, metal straps, dunnage, and plates which are used for fastening or securing manufactured or compounded products into railroad cars, trucks, aircraft, or vessels for shipment are taxable at the time of purchased.

(12) Purchases by retailers, wholesalers, and others of sales tickets, cash register receipt paper, invoice forms, bill of lading forms, and other forms for use in receipting, billing, invoicing, or shipping are taxable.

(13) The following are examples of items sold by suppliers to certain retailers or service providers with notations as to whether the item qualifies as a nontaxable one-time-use container:

(1) If the sales are made to a food locker business - it must be determined if the products are used in rendering a service, or if they are in the actual retail meat business. If they are wrapping meat for customers to be stored in their individual lockers - this is a service and the items are taxable.

**Author:** Patricia A. Estes

**History:** Repealed: Filed June 4, 1998; effective July 9, 1998.

810-6-1-.75  **Gratuities And Tips.**

(1) The terms "gratuity" and "tip" as used in this rule shall mean a monetary amount paid by a customer in a bar, restaurant, or similar establishment usually in return for or in anticipation of some service. While a gratuity or tip is generally thought of as a voluntary monetary gift, in practice some retailers add a mandatory gratuity to the customer’s bill.

(2) Sales tax does not apply to voluntary gratuities or tips, whether in cash or otherwise added by the customer to the bill, when given directly to the retailer’s employee by the customer or given to the retailer who receives no benefit from the gratuity or tip and merely acts as a conduit to channel the gratuity or tip in total to the retailer’s employee.

(3) Sales tax applies to mandatory charges designated as gratuities, minimum service charges, or other minimum charges billed to customers by retailers, whether listed separately on the customer’s bill or included as part of the selling price of the food, meal, or drinks, when the retailer receives a benefit from the added charges such as using all or a portion of the mandatory charges to supplement the wages or salaries of the retailer’s employees. (State v. International Trade Club, Inc., 351 So. 2d 895 (Ala. Civ. App. 1977)) (Sections 40-23-1(a)(6) and 40-23-1(a)(8), Code of Ala. 1975).

(4) A mandatory charge designated as a gratuity, minimum service charge, or other minimum charge is not taxable when the retailer collects the charge from the customer in lieu
of voluntary gratuities or tips and merely acts as a conduit to channel the charge in total to his or her employees. Added charges of this nature are simply substitutes for cash tips and the retailer receives no benefit from the charge. (State v. International Trade Club, Inc., 351 So. 2d 895 (Ala. Civ. App. 1977)).

810-6-1-.76 Hospitals, Infirmaries, Sanitariums, And Like Institutions - Private.

(1) Private hospitals, infirmaries, sanitariums, and like institutions are required to pay sales tax or use taxes, whichever may apply, on their purchases of tangible personal property. (Sections 40-23-2 and 40-23-61, Code of Ala. 1975).

(2) Private hospitals, infirmaries, sanitariums and like institutions are primarily engaged in the business of rendering services. They are not required to collect and remit sales tax on their gross receipts from meals, bandages, dressings, drugs, x-ray photographs, or other tangible personal property when the items are used in rendering hospital services. This is true irrespective of whether or not the tangible personal property is billed separately to their patients. Private hospitals, infirmaries, sanitariums, and like institutions are deemed to be the purchasers for use or consumption of the tangible personal property; and, the sellers of these items are required to collect sales or use tax on sales of the property to the institutions. Provided, however, purchases by private hospitals, infirmaries, sanitariums, and like institutions of drugs as defined in Section 40-23-4.1(a), Code of Ala. 1975, are specifically exempt from sales and use tax. (Sections 40-23-2, 40-23-4.1, and 40-23-61).

(3) When private hospitals, infirmaries, sanitariums, and like institutions furnish meals to nurses, attendants and patients as a part of their services rendered, the institutions are deemed to be the users or consumers of the food and beverages used in the preparation of these meals. Sales or
use tax is due on the purchase of the food and beverages by the institution in the manner outlined in paragraph (2) unless the institution also operates a cafeteria which serves the public. (Sections 40-23-2 and 40-23-61).

(4) Privately-owned hospitals, infirmaries, sanitariums, and like institutions that operate cafeterias serving meals to the public must purchase all foodstuffs and beverages at wholesale, tax free, and collect the sales tax on sales of meals to their customers and remit the tax to the Department of Revenue. These institutions must also compute and pay tax to the Department of Revenue on the cost of foodstuffs withdrawn from stock and used to feed patients. (Sections 40-23-1(6) and 40-23-1(10)).

(1) Subject to the qualifications outlined in paragraph (2), tangible personal property which is purchased by a
manufactured or compounded and which enters into and becomes an ingredient or component part of the final product manufactured or compounded for sale may be purchased at wholesale, tax free, for both sales and use tax purposes, regardless of whether the property is used with the intent that it becomes an ingredient or component part of the finished product. The burden of proving that such materials do in fact become an ingredient or component part of the finished product must be carried by the manufacturer or compouder. (1) Where the quoted or advertised price is a lump

(2) Where the seller has a standard retail sales

810-6-1-.81.01 Interior Decorators And Interior Designers.

(1) Further, these interior decorators must collect
sales tax from their clients on their retail sales of tangible
personal property and remit the tax to the Department of Revenue.
Out-of-state interior decorators and interior designers, who do
not have a place of business in Alabama but for whose business
sufficient nexus exists, must register to collect sellers use tax
on their Alabama sales and collect and remit sellers use tax to
the Department of Revenue on those sales. (Sections 40-23-6 and
40-23-66).

(2) Fees charged by interior decorators or interior
designers in conjunction with sales of tangible personal property
are a part of the gross proceeds of sales and must be included in
the measure of sales or use tax charged to and collected from their clients. Fees charged by interior decorators or interior designers are taxable even if they are billed to clients as an amount separate from the cost of tangible personal property on a cost plus basis. (Sections 40-23-1(a)(6), 40-23-1(a)(8), and 40-23-60(10)).

(3) Sales or use tax does not apply to fees charged by interior decorators or interior designers solely for consultation or designing services when no sale of tangible personal property occurs in conjunction with those services.

(4) In those instances where interior decorators or interior designers receive a fixed sum fee which is not in any way contingent upon the sale of tangible personal property and, subsequently, sell tangible personal property in a completely unrelated transaction, the fixed sum fee is not a part of the selling price of the tangible personal property and is not subject to sales or use tax.

(5) Interior decorators or interior designers who contract to furnish and install tangible personal property which becomes a part of realty are the users or consumers of such property and owe sales or use tax on the cost of the property so used or consumed. Property withdrawn from inventory by an interior decorator or interior designer for use in performing contracts for additions or improvements to realty must be reported as taxable withdrawals and the sales tax thereon remitted directly to the Department of Revenue. The measure of tax on withdrawals is the cost of the property to the interior decorator or interior designer who withdraws the property. Except as enumerated in Rule 810-6-3-.77, interior decorators or interior designers making additions or improvements to realty may not claim immunity or exemption from sales or use tax on account of property purchased and used in connection with contracts with the federal, state, county, or city governments. The fact that a governmental agency has advised the interior decorator or interior designer not to include tax on the invitation to bid or purchase order would not relieve the interior decorator or interior designer from liability for sales or use tax on the cost of materials used in fulfilling a contract with that agency for making additions or improvements to realty. (Sections 40-23-1(a)(10) and 40-23-60(5)).

810-6-1-.84  Labor Or Service Charges.

(1)  The term "new or different" as used in this rule
shall mean new or different insofar as the ultimate purchaser is
concerned.  The fact that work may be performed at various stages
before an item is ready for use by the ultimate purchaser does not
mean that the item is not a new item.

(2)  Sales or use tax applies to labor or service
charges billed to customers in conjunction with sales of tangible
personal property and repairs to tangible personal property as
follows:

(a)  Labor or service charges, whether included in
the total charge for the product or billed as a separate item, are
taxable if the labor or service (i) is incidental to making,
producing, or fabricating a new or different item of tangible
personal property or otherwise preparing the tangible personal
property for sale and (ii) is performed prior to transfer of title
to the purchaser.  (Sections 40-23-1(a)(6), 40-23-1(a)(8), and
(b) Labor or service charges are not taxable when billed for labor or services expended in repairing or altering existing tangible personal property belonging to another in order to restore the property to its original condition or usefulness without producing new parts. When repair work includes the sale of repair parts in conjunction with repairs to existing tangible personal property belonging to another, only the sales price of the repair parts is taxable provided the charges for the repair parts and the charges for the repair labor or repair services are billed separately on the invoice to the customer. If the repairman fabricates repair parts which are used in conjunction with repairs to existing tangible personal property belonging to another, the total charge for the parts, including any labor or service charges incurred in making, producing, or fabricating the parts, is taxable even if the fabrication labor or service charges are billed to the customer as a separate item. (Sections 40-23-1(a)(6), 40-23-1(a)(8), and 40-23-60(10), Code of Ala. 1975).

Such withdrawals shall be reported on the licensed dealer’s sales tax return and the sales tax thereon

810-6-1-.90 Machine Shops.

(1) Sales of property manufactured or fabricated by machine shops and custom foundries are subject to sales or use tax, except when the sale is for resale or otherwise specifically exempted.

(2) In doing repair work the machine shop operator consumes materials such as paint, solder, babbitt, and lumber which lose their identity in the repairing process. The machine shop operator is also considered to be the consumer of items such as cotter keys, nails, washers, stove bolts and nuts, bits of metal, and sheets of metal used in patching, mending, or reinforcing weakened parts. The machine shop operator shall not collect sales or use tax from the customer on amounts billed to the customer for the cost of these materials which the operator consumes in performing repair work; instead, the operator shall remit sales or use tax to the supplier at the time of the operator’s purchase of the materials.

(3) Where in making repairs the machine shop operator fabricates or manufactures a recognizable part or attachment for the article being repaired (as contrasted to patching, mending, or reinforcing weakened parts), the operator shall bill the parts or attachments separately and collect sales or use tax only on the sales price of the part or attachment. If the machine shop operator fails to separately state the charges for parts and attachments and the charges for services, the
operator shall collect sales or use tax on the total amount of the charges billed to the customer. Under no circumstances, however, shall the machine shop operator deduct labor or other costs which go into the fabrication or manufacture of a recognizable part or attachment from the selling price of the part or attachment. The seller may not deduct any of his costs, nor can he deduct any of his charges for labor or services, which are an item of the production or fabrication costs of the article, to arrive at the taxable amount. Articles commonly made to order are curtains, draperies, tents, awnings, clothing, and slipcovers. The person making sales of made-to-order and custom made articles purchases the materials which become a component or ingredient of their products at wholesale, tax free. The equipment, tools and supplies used or consumed in the production of such articles and not becoming a part thereof are subject to tax, except that machines used in such production are specifically taxed at one and one-half percent rather than the general rate of four percent. §40-23-1(6).

810-6-1-.95  **Materials Used In Repairing.**

(1)  Materials used in repairing, for tax purposes, fall into the following classes:

(a)  Materials which pass to the repairman's customer and which do not lose their identity when used by the repairman and which are a substantial part of the repair job (such as auto repair parts, radio tubes, and condensers) are sold at retail by the repairman. He must collect and report sales tax on such
sales, including tax on the service incidental thereto. He may, however, if making a separate agreement to sell the repair parts and to perform the labor and service required, collect and remit the tax only upon the price of the parts if his records and his invoices clearly show a separation of the amounts received from sales and parts and from rendering service.

(b) Materials which pass to the repairman's customer but which lose their identity when used by the repairman or which are inconsequential in amount, such as paint, solder, and tacks, are considered to have been used or consumed by the repairman and are taxable at the time of sale to him.

(c) Materials which are used or consumed by the repairman and which do not pass on to his customer are supplies and taxable when sold to the repairman. §40-23-1(10).

(d) Materials which fall in classes (b) or (c) are purchased at wholesale for use by a repairman who, in addition to using such materials as a repairman, sells the same kinds of materials for use by others. These materials become subject to the sales tax upon their withdrawal for use by the repairman under the withdrawal feature of §40-23-1(6), (8), and (10). Note, however, that a repairman is not to be considered a vendor of these classes of materials unless he carries a stock of them and sells outright therefrom a substantial amount. If the repairman makes only isolated sales or "accommodation" sales of these materials he is not to be considered as a seller of them under the sales tax law, in which case his supplier must collect the tax.

(2) In all instances, materials are taxable when sold to repairmen for use in making repairs where such materials lose their identity as a result of such use, for instance, solder used in welding, paint used in automobile refinishing, thread used in mending clothing. In all instances where the shape or composition of the repair material is materially changed, such altered or changed material is considered to have been used or consumed by the repairman and, for that reason, subject to tax when sold to him. No tax on this material is to be collected by the repairman from his customer.

(3) In instances where repair materials and repair parts are passed to the repairman's customer without change, except necessary and customary minor adjustments, such parts or materials may be purchased at wholesale by the repairman licensed
under the Sales Tax Law. The repairman is then required to collect sales tax from his customer.

810-6-1-.97 Materials Used On Road And Bridge Projects.

(1)(a) Sales of sand, gravel, or other building materials by landowners or other suppliers who regularly sell or offer to sell these materials are subject to sales tax when made to contractors for the State of Alabama or the counties or municipalities of the State for use by the contractors in building roads or bridges. This rule applies in all instances where the contractor is obligated by the terms of the contract to furnish, to pay for, and to lay down the materials, including sales of materials which have been selected by and on which an option has been taken by the state or the counties or municipalities of the State. The supplier shall collect the tax from the contractor and remit the amount due to the Department of Revenue. (Sections 40-23-1(a)(10) and 40-23-60(5)).

(2) Where an isolated sale of sand, gravel, or similar material is made to a contractor by a landowner who is not engaged in the business of selling such material, the isolated sale will not be required to be reported to the Department and neither sales tax nor use tax will be due from the landowner or from the contractor on the transaction.

(1) A mattress renovator both renders service and sells tangible personal property where he rebuilds or renovates a mattress for his customer by reworking the materials in the customer's mattress, the identity of which is maintained throughout the operation, and by adding thereto whatever new materials are required to complete the job in a satisfactory matter. Under these circumstances, the mattress renovator may make separate contracts to render the service required and to sell the tangible personal property used (ticking, cotton, springs, tufts, etc.) in which case the receipts from a rendering service are not subject to sales tax where the invoice rendered to the customer and the records of the renovator show separately sales of tangible personal property and charges for performing services. Provided, however, for tangible work of this nature is done for a lump sum without separation of charges for tangible personal property and for services, the sales tax shall apply to the lump sum amount.

(2) In instances where the identity of the customer's mattress is not preserved with the mattress delivered to the customer having been made from whatever materials were available, the mattress returned to the customer is considered a new article, the measure of the tax being the amount paid by the customer including the value of the customer's old mattress. The mattress renovator purchases at wholesale tax free the materials he uses in renovating or rebuilding his customer's mattress. §40-23-2(1).

810-6-1-.105 **Modular Buildings.**

(1) The Alabama Supreme Court has interpreted the language relative to modular buildings in Sections 40-23-1(a)(10) and 40-23-60(5), Code of Ala. 1975, as “designed to make the sale of materials going into the construction of such buildings
subject to the tax and to exempt the sale of the building itself” from sales or use tax. This interpretation places “modular building components on a par with conventional building materials” and makes “the sale of all building materials, modular or otherwise, sales at retail.” The attachment of the building components or units to realty and the subsequent sale of the components or units as a completed building is not treated as a taxable transaction. In making this interpretation, the Supreme Court ruled that use tax is due on modular building units manufactured by an out-of-state manufacturer and sold by the manufacturer to a contractor who attached the units to realty in Alabama. The measure of the use tax is the manufacturer’s selling price of the modular units. (Boswell v. Alcoa Construction Systems, Inc., 368 So. 2d 18 (S.Ct.1979)).

(2) Sales tax is due on modular building components or units manufactured in Alabama as follows:

(a) An instate builder or manufacturer of modular building components or units who builds or manufactures the components or units for resale in the form of tangible personal property to persons who affix them to realty, shall obtain a sales tax license and purchase all building materials, fixtures and other equipment becoming part of the modular building components or units without payment of sales or use tax to the suppliers. The builder or manufacturer of the modular building components or units shall (i) collect sales tax on any retail sales of the components or units sold in Alabama measured by the selling price of the components or units and (ii) report and pay the sales tax to the Department of Revenue on those retail sales.

(b) In the event an instate builder or manufacturer of modular building components or units, who has obtained a sales tax license pursuant to paragraph (2)(a), also contracts to affix modular building components or units to realty either inside or outside Alabama, the builder or manufacturer shall be liable for sales tax computed on the cost price of the materials withdrawn from inventory and used to build or manufacture the components or units which the builder or manufacturer affixes to realty pursuant to the contract.

(3) Use tax is due on modular building components or units as follows:

(a) Out-of-state builders or manufacturers of modular building components or units, who do not have a place of business in Alabama but for whose business sufficient nexus
exists, shall (i) register to collect sellers use tax on their Alabama sales of modular building components or units which are sold in the form of tangible personal property to persons who affix them to realty and (ii) report and pay the tax to the Department of Revenue on their Alabama sales. The measure of the sellers use tax is the selling price of the components or units. Purchases of modular building components or units from out-of-state builders or manufacturers who are not registered to collect sellers use tax are subject to consumers use tax. Consumers use tax should be computed and paid by the purchaser measured by the purchase price of the components or units. (Section 40-23-60(5)).

(b) An out-of-state builder or manufacturer of modular building components or units, who contracts to affix modular building components or units to realty inside Alabama, is liable for consumers use tax computed on the cost price of the materials incorporated into the components or units which the builder or manufacturer affixes to realty in Alabama pursuant to the contract. Credit for legally imposed sales and use taxes paid to any other state or its subdivisions will be allowed against the Alabama use tax due as outlined in Rule 810-6-1-.04. (Sections 40-23-60(5) and 40-27-1, Article V.1, Code of Ala. 1975).

810-6-1-.106 Monuments, Memorial Stones, Grave Markers, And Other Decorative Or Commemorative Objects.

(1) Monuments, memorial stones, grave markers, or other similar decorative or commemorative objects, collectively referred to in this rule as monuments, are building materials. Sales of monuments to the person who installs or erects them to realty are retail sales. The person who installs or erects monuments to realty is a contractor.

(2) A monument dealer or builder who contracts to furnish and install or erect monuments is a contractor and shall pay sales or use tax to the supplier on the cost of the monuments purchased for use in performing contracts or on the cost of the materials which become a component part of monuments which the

In the event the supplier is an unregistered out-of-state supplier, the monument dealer/builder shall compute and pay consumers use tax on the monuments or monument materials purchased from the unregistered supplier. (Sections 40-23-1(a)(10) and 40-23-60(5).

(3) A monument dealer or builder who sells monuments uninstalled is a retailer and shall apply for and obtain a sales tax license or, if an out-of-state business with nexus in Alabama, register to collect sellers use tax. 810-6-1-.112 Signs.

(1) Signs are to be considered subject to tax on the full sales price when such signs are standard, prefabricated by the seller or his supplier and delivered as a complete unit to the point where set up.

(2) When the signs are custom built into a building or otherwise affixed to real property, they come within the building materials provision with the tax being due from the person who erects the sign to his supplier on the cost of materials used to construct the sign, in which case no tax would be due from the person installing the sign on his service in attaching the materials to the building and/or real property. The same rule will apply when a builder constructs an outdoor advertising sign that will become affixed to real property from the ground up using lumber, nails, sheetmetal, etc.
(3) In the instances whereby the sign company subcontracts the installation or subcontracts a portion of the construction of the sign, taxation of the materials will be as described above in paragraph (2), with tax being due on the cost of the materials used by the contractor and/or subcontractor that builds the custom-made signs.

(4) In recent court decisions in this State, the courts have held that the contractor provision provided in Section 40-23-1(a)(10) applies if the following criteria are met: (i) the taxpayer must be a contractor; (ii) the materials must be building materials; and (iii) the materials must become a part of the real estate. See Department of Revenue v. James A. Head & Co., 306 So.2d 5 (Ala. Civ. App. 1974), cert. denied 306 So.2d 12 (1975).

(5) It has also been determined that the taxpayer was a contractor even though actual installation was performed by a third party:

(a) “…the ‘contractor’ provision also applied to those materials provided by the taxpayer but installed by the electrical contractors, citing Montgomery Woodworks (“The court holding in Montgomery Woodworks illustrates, however that actual installation by the taxpayer is not required.” Hunter Security at 5.) Hunter Security, Inc. v. State of Alabama, Docket S. 05-1309.

(b) “Therefore, the failure of the taxpayer to actually install the cabinets after they have been fabricated does not prevent the taxpayer from being a ‘contractor’ within the meaning of §40-23-1(a)(10).” State of Alabama v. Montgomery Woodworks, Inc., 389 So.2d 512 (Ala. Civ. App. 1980)

(6) In some instances the sign dealer will be in a dual business, both selling and building signs. When both parts of the business are substantial rather than incidental, the dealer should be set up to purchase all material at wholesale, tax free, and pay tax directly to the Department of Revenue on sales and withdrawals. See Rule 810-6-1-.56, Dual Business. See, also, 810-6-1-.29, Building Materials Manufactured by Contractors.

(7) The providing of billboard advertising is a service; and, the receipts therefrom are not subject to sales tax. The provider of billboard advertising services must pay
sales or use tax on purchases of supplies, materials, and equipment used in the operation of the business.

(1) Persons doing any kind of painting where the only tangible personal property supplied by them is the paint which they apply and the equipment, brushes, and supplies used in such application are primarily rendering a service and not making retail sales. The receipts from such painting are not subject to the sales tax. All of the paint, tools, brushes, equipment and supplies purchased by the painters are subject to a sales tax or use tax, whichever applies, at the time of sale to the painter.
(2) Note, however, that where painters sell painted signs, furniture, or articles which they have manufactured or purchased for painting for resale purposes, such sales are subject to sales tax. The paint and other materials used as a component part of articles to be sold are purchased tax free at wholesale.

(3) Where painters are both consuming paints, etc., in rendering services and consuming from the same stock the same kind of property and manufacturing property for sale, where the use and manufacturing is continuous and a substantial part of the total business, and where suitable records are kept revealing costs of all materials used in contract painting and cost of materials used in manufacturing, the painter using the materials for both purposes will be allowed to purchase all of the dual purpose materials at wholesale tax free and pay sales tax on the basis of gross receipts from property sold at retail plus the total cost of all materials used, consumed, or furnished by him in his contract painting business.

(4) Where the painter is in such dual business and his records are not kept to reveal sales and the cost of property used in contract painting, he shall be required to pay sales or use tax on all of his purchases and, in addition, will be required to report and pay sales tax on all of his sales of property at retail.

(5) Such consumable supplies as brushes, thinners, paint removers, hand tools, sand paper, etc., are, in any event, taxable when purchased by the painter. §40-23-1(6).

(1) When a licensed dealer in automotive vehicles makes purchases of parts and materials to repair or recondition vehicles held in his inventory for sale, the purchases are tax free if the parts or materials become a part of the vehicle that will later be sold and taxed on the total sales price.

(2) When a licensed dealer in automotive vehicles repairs or reconditions vehicles for individuals as well as vehicles that are a part of his own inventory for sale, all of the dealer's purchases of parts or materials are at wholesale, tax free. Provided suitable records are maintained to distinguish between parts or materials used on his own vehicles and those of others, only the parts and materials used in repairing or reconditioning the vehicles of others are taxable. Such parts used in repairing the vehicles of others are taxable when sold to the customer and such materials used in reconditioning the vehicles of others are taxable when withdrawn and used by the dealer-repairman.

(3) The term "materials" as used herein shall mean items such as paint, body lead, solder, and wax which become a part of a reconditioned automobile. Supply items not becoming a part of a reconditioned automobile such as sandpaper, thinner used for cleaning purposes, masking tape, and rags are taxable retail sales when purchased by the dealer. The term "parts" as used herein shall mean items which are passed on substantially intact by the dealer such as seat covers, gears, fan belts, piston, batteries, and tires. The term "parts" does not include materials as defined above and does not include supplies such as those listed above.

The transfer of digital images of these items from a seller to a purchaser for a price constitutes the sale of tangible personal property. For transactions occurring before October 1, 2017, neither the Department of Revenue nor the local tax officials may seek payment for sales or use tax not collected. (1) Gross receipts accruing from the retail sales of printed matter of all kinds are subject to the sales tax. (Also see Rule 810-6-1-.137 entitled Raw Materials and Supplies Purchased By Manufacturers and Compounders.)

(2) Sales to consumers of printed matter such as catalogs, books, letterheads, invoice forms, envelopes, folders, advertising circular, and the like by printers or others engaged in selling printed matter are subject to the sales tax. A printer may not deduct from the selling price of such tangible personal property charges for the labor or service of performing the printing even though such labor or service charges may be billed to the customer separately from the charge for the stock. Such labor or service is embodied in and becomes a part of the tangible personal property sold.

(3) Where printers purchased from the United States Post Office stamped cards and envelopes and print thereon various legends for customers, the printers must pay sales tax measured by their gross proceeds of sales of the printed cards or envelopes to the customers. Such cards and envelopes constitute tangible personal property and, if they are not resold by such customers, the sales by the printers are at retail. Such printers will not be required to pay sales tax on the amount of the postage where stated separately in billing to customers.

(4) No tax arises from the service of printing or from the service of typesetting performed by the printer for a customer or for another printer where there is no transfer of ownership of tangible personal property from the printer to his customer. (§40-23-1(a)(6)).

(5) Sales of materials to printers are at wholesale, tax free, when such materials become a component of the printed matter produced for sale. The machines used in the printing come within the machine levy and are taxed at the one and one-half percent rate. The supplies, materials, and equipment not becoming a component of the product sold or not constituting a machine used in manufacturing are subject to the sales or use tax, whichever may apply, at the general rate of four percent.
(6) Newspaper advertising supplements or circulars inserted in newspapers usually fall in the following categories:

(a) A buyer enters into a contract with a printer for the printing of advertising circulars, catalogs, etc., and directs the printer to deliver the printed material to a newspaper or several newspapers, or directs that they be delivered to another location, sometimes the buyer's place of business. The buyer then enters into a second contract with the newspaper for distribution of the inserts. That portion of advertising supplements or inserts retained by the buyer for distribution to buyer's customers, that do not become part of newspapers manufactured for sale, will be subject to sales tax. However, those advertising supplements or inserts that are delivered to the purchasers or newspaper companies to be inserted into and become part of the newspaper are purchased at wholesale, tax free. Ralph P. Eagerton, Jr. v. Dixie Color Printing Corporation.

(b) Newspaper advertising supplements and inserts which are inserted into the newspapers and sold as part and parcel of the newspaper, the retail sales of which are subject to the sales tax, no sales tax arises where such advertising supplements or inserts are:

(1) printed by the publishers of the newspaper and inserted into and sold as part and parcel of the newspaper published by such publishers, or

(2) printed by another printer for the newspaper publisher and paid for by the newspaper publisher for insertion into and sold as part and parcel of the newspaper.

(Section 40-23-60(5)).

(c) Where untreated cross ties or timbers are purchased within Alabama for shipment in interstate commerce without paying the Alabama sales tax and where the cross ties or timbers are shipped outside this state for creosoting and subsequently shipped into and used within this state, the purchase is subject to the use tax as measured by the full price of the finished product brought into this state. Sales tax may be removed from the retail vending machine

(2) Sales of tangible property through vending machines are taxable as follows:

(a) Vending machine sales of food and food products for human consumption, coffee, milk, milk products, and substitutes for these products are taxable at 3 percent of the retail sales price. Items which qualify for this special rate include, but are not limited to, sandwiches, candy, potato chips, and crackers. (Section 40-23-2(5)).

(b) All other tangible personal property sold through vending machines is taxable at 4 percent of the retail sales price. Items which are taxable at the 4 percent general rate include, but are not limited, to softdrinks, fruit juices, bottled water, cigarettes, health and beauty aids, and chewing gum. (Section 40-23-2(1)).

(3) Except as noted in (a) below, the wholesale supplier of property sold through vending machines sells the property at wholesale and is not required to collect sales tax from the retail operator provided the operator is a retailer licensed pursuant to Section 40-23-6, Code of Ala. 1975. The licensed retail operator is required to report and pay the sales tax due on vending machine sales. The wholesale supplier shall charge tax to all customers who do not have a sales tax license number or who are not otherwise exempted by law. The measure of tax is the amount received by the supplier for the sale of the property. (Section 40-23-1(a)(9)a).

(a) Where a licensed or unlicensed retail operator purchases property for resale through vending machines and retains title to the property in the vending machines, the wholesale supplier and the retail operator may agree that the wholesale supplier will service the machines, collect the receipts from the machines, and collect and pay sales tax to the Department of Revenue on the vending machine sales. The payment of all applicable sales tax to the Department of Revenue by the wholesale supplier shall discharge both the supplier and the licensed or unlicensed retail operator from any additional sales tax liability with respect to sales through the vending machines covered by the agreement. The payment of a rental fee on the machines by the
retail operator to the wholesale supplier shall not affect the validity of the agreement.

(4) A wholesale supplier of property sold through vending machines shall maintain records which show the sales tax license number of every purchaser who purchases property at wholesale. These records may be maintained on a ledger or other suitable book, in a separate card index, on each individual invoice, or in a computerized record keeping system. Each wholesale invoice shall show the complete name and address of the wholesale purchaser. Invoices made out to "cash" shall always be considered retail sales invoices. (Section 40-23-9).

(5) A wholesale supplier who places vending machines on location, retains title to the property in the vending machines, pays the location owner a certain percentage of the gross sales as a rental charge for conducting business in the space occupied by the vending machines, services the machines, and collects the receipts is the retail operator of the vending machines and is required to report and pay the sales tax due on the sales through the machines. (Sections 40-23-2(1) and 40-23-2(5)).

(6) The provision in paragraph (2)(a) regarding the proper measure of tax to be used in computing the 3 percent sales tax applicable to vending machine sales of food and food products for human consumption, coffee, milk, milk products, and substitutes for these products shall be effective January 1, 2000.

810-6-1-.184  Seller Sells Tax Free At The Seller’s Risk.

(1) Other than the exceptions noted in paragraphs (2), (3), (4) and (5) below, the seller is liable for sales or use tax on any sales for which the seller fails to collect the appropriate sales or use tax due. It is the seller's duty under the Sales and Use Tax Laws to know the general and customary business of the customer and to collect the amount of tax due. The seller is not, however, expected to follow each article of goods sold to its final use; therefore, the seller is not to be held accountable for an isolated transaction made by the customer or for an isolated use of property by the customer. Where a seller sells to a customer who both uses and sells from the same stock of goods, the seller may sell, tax free, at wholesale all of the goods so used and resold. (Sections 40-23-26 and 40-23-67, Code of Ala. 1975).

(2) A seller, who acts in good faith and reasonably believes a tax exempt purchase is legal, is not liable for sales or use tax later determined to be due on a sale for which the purchaser provides the seller with a State Sales and Use Tax Certificate of Exemption (Form STE-1). (See Sales and Use Tax Rule 810-6-5-.02 State Sales and Use Tax Certificate of Exemption (Form STE-1) - Responsibilities of the Certificate Holder - Burden of Proof - Liability for Taxes Later Determined to be Due.) (Section 40-23-120).

(3) A seller who secures a properly completed and duly signed certificate pursuant to §40-23-4(a)(10) or §40-23-62(12), Code of Ala. 1975, and has no knowledge that such certificate is false when it is filed is not liable for sales or use tax on a sale later determined to be taxable. (See Sales and Use Tax Rule 810-6-3-.67.04 Certificate of Exemption - Fuel and/or Supplies Purchased for Use or Consumption Aboard Vessels Engaged in Foreign or International Commerce or in Interstate Commerce.) (Sections 40-23-4(a)(10) and 40-23-62(12)).

(4) A seller who secures from the purchaser a Form ST: EXC-1, or a variation thereof approved by the Revenue Department, is not liable for sales or use tax later determined to be due on sales of tangible personal property which the purchaser claims are exempt pursuant to Sections 40-23-4(a)(2), (4), or (22) or 40-23-62(5), (7), or (23). (See Rule 810-6-3-.20.01 Exemption Certification Form Respecting
Fertilizers, Insecticides, Fungicides, and Seedlings (Form ST:EXC-1). (Section 40-23-4.3).

(5) A seller, who acts in good faith and reasonably believes a tax exempt purchase is legal, is not liable for sales or use tax later determined to be due on a sale for which the purchaser provides the seller with a Sales and Use Tax Certificate of Exemption for an Industrial or Research Enterprise Project (Form STE-2). (See Sales and Use Tax Rule 810-6-4-.24.01 Sales and Use Tax Certificate of Exemption for an Industrial or Research Enterprise Project (Form STE-2) - Responsibilities of the Certificate Holder - Burden of Proof - Liability for Taxes Later Determined to be Due. equipment, and supplies are taxable at the time of purchase by the veterinarian.

(2) Veterinarians in many instances make retail sales of medicines, vaccines and other supplies. Veterinarians who make retail sales shall apply for and obtain a sales tax license. Further, these veterinarians shall collect sales tax from their customers and remit the tax to the Department of Revenue.

(3) Veterinarians who have obtained a sales tax license shall purchase all medicines, equipment, and supplies from veterinarian supply houses tax-free. Those items purchased tax-free and used or consumed by the veterinarian shall be reported as a withdrawal by the veterinarian and the sales tax thereon remitted directly to the Department of Revenue. The tax on withdrawals shall be computed on the cost of the item purchased tax-free from the veterinarian supply house. The veterinarian shall collect sales tax from the customer on those items purchased tax-free from veterinarian supply houses and resold by the veterinarian. The tax on retail sales by veterinarians shall be computed on the selling price to the customer.

(4) With respect to purchases from suppliers other than veterinarian supply houses, veterinarians who have obtained a sales tax license shall pay tax to the supplier on items purchased for use or consumption and not for resale. Examples of such items include, but are not limited to, equipment, office supplies, and office furniture. Items purchased for resale from suppliers other than veterinarian supply houses shall be purchased tax-free and the veterinarian shall compute and pay sales tax on withdrawals and collect and remit sales tax on retail sales to customers.

(5) The sale, use, storage, or consumption of all antibiotics, drugs, serums, vaccines, and other medications used in the commercial production and growing of fish, livestock, and poultry is exempt from sales and use tax. This exemption does not apply to medications for dogs, cats, or any other animal which does not qualify as fish, livestock, or poultry. When antibiotics, drugs, serums, vaccines, and other medications are used for both taxable and exempt purposes, the veterinarian must maintain adequate records to substantiate the exempt usage; otherwise tax shall be due on all antibiotics, drugs, serums, vaccines, and other medications regardless of how used.

810-6-1-.188 Watch And Jewelry Repair Shops.

(1) Watch and jewelry repairmen render services in repairing, cleaning or servicing articles which belong to other persons. They also engage in the business of selling tangible personal property for use or consumption, such as watches, clocks, watch cases, watch parts, etc.

(2) Where the watch or jewelry repairman renders nothing but a service, sales tax does not apply to the transaction. If the tangible personal property is sold and the labor or services furnished in separate transactions, each transaction being billed separately, then the tax applies to the sales price of the tangible personal property and not to the labor or service.

810-6-1-.190 Whiskey Tax.

(1) Title 28, Chapter 3, Article 6, Code of Ala. 1975, entitled Taxes on Sale of Spirited or Vinous Liquors, levies a total tax of 56 percent upon the selling price of all spirituous and vinous liquors sold by the Alabama ABC Board.

(2) The definitions of “Gross Proceeds of Sales” and “Gross Receipts” found in §40-23-1, Code of Ala. 1975, were amended effective May 7, 1992 to provide that any consumer excise tax included in the sales price of the property sold cannot be deducted from the gross proceeds of sales or gross receipts used to compute sales tax due on taxable sales. State and local consumer taxes, including, but not limited to, tobacco tax, beer tax, wine tax, and liquor tax cannot be excluded from the measure of state or local sales tax computed on taxable retail sales.

(3) The operator of a bar, tavern, or restaurant who sells alcoholic drinks purchases the liquors from the ABC Board at wholesale and pays the 56 percent liquor tax to the board based on the selling price. The sales tax is not due on such purchases, since they are purchases for resale. Subsequent sales of drinks by the bar, tavern, or restaurant operator are subject to the state sales tax. The measure of the tax is the total amount received for the drinks. The tax paid to the ABC Board in such cases becomes another overhead business expense to the retailer which he can take into consideration, together with other business expenses, in determining the selling price of each drink. He cannot collect the liquor tax from his purchaser as a tax; therefore, the total selling price is subject to state sales tax at the general rate.
