810-6-2-.02 **Accessories On New Automobiles, Applicable Tax Levy.**

(1) Accessories which are purchased from the dealer after title and possession of the automotive vehicle have passed to the purchaser are taxed at the usual 4% rate.

(2) As a practical application of this rule, the dealer's sales invoice will be accepted as the basis for determining the tax rate applicable unless there is conclusive evidence that the invoice does not reveal the true facts. (Adopted March 9, 1961, amended November 1, 1963, amended September 26, 1966. §40-23-2(1))

810-6-2-.04 **Automotive Demonstrator, Levy Of Tax.**

(1) Any dealer licensed pursuant to Section 40-23-6, Code of Ala. 1975, who withdraws from his or her stock in trade any automotive vehicle, truck trailer, semi-trailer, or house trailer for use by the dealer or by the dealer’s employee or agent in the operation of the business, shall pay, in lieu of the sales tax, a fee of five dollars ($5.00) per year or part of year on each automotive vehicle, truck trailer, semi-trailer, or house trailer so withdrawn. Each year or part thereof shall begin with the date or anniversary date of the withdrawal and run for the 12 succeeding months during which the automotive vehicle, truck trailer, semitrailer, or house trailer remains the property of the dealer. This fee is to be reported on the dealers' sales tax returns covering the tax reporting period in which the withdrawal is made. When the vehicle is returned to the stock of the dealer and sold, the sale is subject to the tax. (Section 40-23-2(4))

(2) The use described in the preceding paragraph does not include the withdrawal of automotive vehicles, truck trailers, semitrailers, or house trailers by a dealer for rental or leasing purposes where the dealer is engaged in business both of selling and leasing such property. If a dealer withdraws from stock a vehicle or trailer for leasing purposes, the withdrawal is exempt from sales tax if the lease of the vehicle or trailer is taxable pursuant to Section 40-12-222, Code of Ala. 1975.

(3) Where the dealer follows the practice of having his or her salesmen purchase the vehicles which they use as demonstrators, the sales to the salesmen are subject to sales tax measured on the sales price thereof less any allowance made for used vehicles taken in trade. The sale of the used vehicle so taken in trade is subject to sales tax when resold.

(4) The withdrawal of an automotive vehicle from inventory by a licensed dealer for the purpose of providing the vehicle to a school for use in a drivers education program
constitutes use by the dealer in the operation of the dealer’s business and, therefore, is subject to the five dollar ($5.00) fee outlined in paragraph (1) above. (Section 40-23-2(4))

810-6-2-.09.02 Sales Of Textbooks, Other Books, And School Supplies By Schools.

(1) The term “elementary or secondary school” as used in this rule shall mean a school where the curriculum consists of one or more of grade levels K through 12. This term shall not include nurseries and day care centers nor shall it include private schools at which the courses of study are limited to specialized subjects such as dance, horseback riding, music, cooking, sewing, or religion.

(2) The sales and use tax statutes contain no exemption for sales of textbooks, other books, and school supplies. Accordingly, unless the sales or use tax statutes contain a specific exemption for the seller or purchaser, sales or use tax is due on retail sales of these items at the general rate of tax. (Sections 40-23-2(1) and 40-23-61(a), Code of Ala. 1975)

(3) Sales of textbooks, other books, and school supplies made by a school (not including an institution of higher learning) owned and operated by a county or a municipality of the State of Alabama are not subject to sales or use tax. (City of Anniston v. State, 265 Ala. 303, 91 So. 2d 211 (1956))

(4) Sales of textbooks, other books, and school supplies made by a privately-owned and operated elementary or secondary school or by an elementary or secondary school owned and operated by the State of Alabama are exempt from sales or use tax when the net proceeds from the sales are used solely for the
benefit of the elementary or secondary school. See Sales and Use Tax Rule 810-6-2-.88.04 entitled Exemption for Certain Sales by Elementary and Secondary Schools, School Sponsored Clubs and Organizations, and School Affiliated Groups. (Section 40-9-31, Code of Ala. 1975)

(5) Except as outlined in paragraph (4), sales of textbooks, other books, and school supplies made by a privately owned and operated school or college or by a school or college owned and operated by the State of Alabama are subject to sales or use tax. 810-6-2-.12.06  Compressors, Tar Buckets, Portable Signs.  
Compressors, tar buckets, and portable signs mounted on wheels are not considered trailers.  A trailer is defined as a vehicle without motive power designed to carry persons or property wholly on its own structure and to be drawn by a motor vehicle.  Since portable compressors, portable tar buckets, and portable signs are not designed for ordinary highway hauling purposes, they are subject to tax at the rate of 4 percent. 810-6-2-.13  Compositions.

(1)  Gross proceeds accruing from the retail sales of compositions, paste-ups, or layouts sold to printers, publishers, or others are subject to the sales tax at the machine rate of 1 1/2%.

(2)  Subject to the criteria outlined in Sales and Use Tax Rule 810-6-1-.80 entitled ingredient or Component of Product Manufactured or Compounded for Sale, sales of materials to the manufacturer of the compositions are at wholesale, tax free, when such materials become a component of the compositions, etc., produced for sale.  The machines used by the composition manufacturer in manufacturing the compositions are taxable at the machine rate of 1 1/2%.  The supplies, materials and equipment not becoming a component of the product sold, or not constituting machines used in manufacturing are subject to the sales or use tax, whichever may apply, at the general rate of 4%.  (Sections 40-23-1(a)(9)b and 40-23-60(4)b)

(3)  Where a printer or publisher manufactures compositions for their own use, sales or use tax, whichever may apply shall be due on the purchase price of the materials.

810-6-2-.14 Cotton Gins.

(1) Cotton gin machinery and equipment used in separating lint from seed, in cleaning and conditioning lint, in baling lint, the engines or motors furnishing the power for such separating, cleaning, conditioning and baling, and the equipment used to carry the cotton lint and seed, from step to step in the ginning process are taxed at the special machine rate of 1 1/2%. The equipment which carries the seed cotton directly into the first processing machine and the blower which discharges the seed from the gin are considered to be attachments to the processing machines and therefore, are also taxed at the special rate.

(2) The special rate does not, however, apply to conveyor equipment used in unloading seed cotton and putting it into storage and does not apply to moving cotton seed from the gin to storage and from storage into transport equipment. Other equipment and materials which are taxed at the general 4% rate are scales of all description and building materials used in the construction of the gin house and storage facilities. (Adopted March 9, 1961, amended November 1, 1963, effective July 1, 1963) §§40-23-2(3), 40-23-2(1)

Author:  
810-6-2.05 **Federal Tax On Hazardous Chemicals.** It is the position of the Department based on an opinion by the Legal Division of the Department of Revenue that the federal tax is to be included in the measure of the tax when computing sales and/or use tax on retail sales of hazardous chemicals. The federal tax is a "cost of doing business" tax levied upon the sale or use of certain chemicals sold by a manufacturer, producer or importer thereof. §4662C, Title 26, U.S.C.A. reads as follows: "If any person manufactures, produces, or imports a taxable chemical and uses such chemical, then such person shall be liable for tax under §4661 in the same manner as if such chemical were sold by such person." Therefore, if the tax is on the cost of doing business by the provider of the chemical, then the federal tax would be included in the measure of the base used for computing the sales and/or use tax payable to the state. §40-23-1(10)

810-6-2.25 **Refractories, Rates Applicable To.**

(1) The term “refractories” as used in this rule shall mean fire clay, firebrick, magnesite, steel, and other special purpose heat resistant materials.
(2) Refractories, which are not in the nature of building materials and which are designed and manufactured for use as parts or attachments for machines used in manufacturing, compounding, or processing tangible personal property, are taxable at the reduced machine rate of sales or use tax when purchased for use as a part or attachment to manufacturing machinery. (§§40-23-2(3) and 40-23-61(b))

(3) Refractories purchased for use in lining blast furnaces, kilns, boilers, cupolas, ladles, or other machines used to manufacture, compound, or process tangible personal property are taxable at the reduced machine rate of sales or use tax. (§§40-23-2(3) and 40-23-61(b))

(4) Refractories purchased for purposes other than becoming parts or attachments to machines used in manufacturing, compounding, or processing tangible personal property are taxable at the general rate of sales or use tax. (§§40-23-2(1) and 40-23-61(a))

810-6-2-.27 Gold, Coin And Bullion.

(1) Sales of gold in coin, bullion, nugget, flake or other form to purchasers within the state are subject to the retail sales or use tax. In any form other than as a mineral in
place, not yet extracted, gold is tangible personal property subject to the usual rules of taxation. Therefore, exemption is allowed only if the sale is for resale in the regular course of business or if the gold becomes an ingredient or a component of a new article for sale. Sales to purchasers for investment or speculation are fully taxable and are treated as sales of coins, stamps, paintings, antiques or other valuables purchased by collectors. When applicable, the tax is measured by the full selling price without deductions for brokerage fees, service fees or premiums included in the gross price.

(2) Following are a few guidelines for the taxation of gold:

(a) Gold purchased and delivered outside the state is subject to use tax at the time it is brought into the state.

(b) Sales of gold to persons who take only a document of ownership covering gold remaining outside of the state are exempt from sales and use tax.

(c) Sales to persons who use gold in the rendition of professional or commercial services such as dentists or dental laboratories are taxable.

(d) Agents, including gold jobbers and brokers, who sell gold at retail in their own name must collect retail sales tax thereon. (Adopted July 2, 1975) §40-23-2(1)

810-6-2-.29 Hand Tools Not Exempted As Machines.

(1) The word "machine" as used in the Sales and Use Tax Laws is not understood to mean and include the hand implements used by laborers and craftsmen, commonly referred to as "hand tools" which are manually powered and controlled.
(2) Implements, hand operated, which are powered by electricity, steam or compressed air which is delivered to implements through wires, pipes, or hoses are considered to come within the levy of the tax at 1 1/2% where such implements are used in mining, quarrying, manufacturing, processing or compounding. §§40-23-1(10), 40-23-2(3)

History:

810-6-2-.30 Hose - Water, Steam, Or Air. Hose when used as an attachment for a machine used in manufacturing, compounding, processing, mining or quarrying is taxed at the machine rate of 1 1/2%. Hose used for general purposes or for maintenance is taxed at the general rate of 4%. (Adopted March 9, 1961, amended November 1, 1963) §§40-23-2(3), 40-23-2(1)

810-6-2-.31 Hospitals, Infirmaries, Sanitariums, And Like Institutions - State, City, and County.

(1) State, city, and county owned and operated hospitals, infirmaries, sanitariums, and like institutions are exempt from the payment of sales or use tax on their purchases of tangible personal property. §§40-23-4(11) and 40-23-62(13)

(2) State, city, and county owned and operated hospitals, infirmaries, sanitariums, and like institutions are primarily engaged in the business of rendering services. They are not required to collect and remit sales tax on their gross receipts from meals, bandages, dressings, drugs, x-ray photographs, or other tangible personal property when such items are used in rendering hospital services. This is true irrespective of whether or not such tangible personal property is billed separately to their patients. State, city, and county owned and operated hospitals, infirmaries, sanitariums, and like institutions are deemed to be the purchasers for use or consumption of such tangible personal property; and the sellers of these items are not required to collect sales or use tax on sales of such property to said institutions since such purchases are specifically exempt from sales and use tax pursuant to Code of Ala. 1975, §§40-23-4(11) and 40-23-62(13).
(3) When state, city, or county owned and operated hospitals, infirmaries, sanitariums, and like institutions furnish meals to nurses, attendants, and patients as a part of their services rendered, such institutions are deemed to be the users or consumers of the food and beverages used in the preparation of these meals. Purchases of food and beverages for use or consumption by these institutions are exempt from sales and use tax. §§40-23-4(11) and 40-23-62(13)

(4) When state owned and operated hospitals, infirmaries, sanitariums, and like institutions operate cafeterias that serve meals to the public, such institutions will be required to collect and remit the sales tax on sales of meals and beverages to their customers. Foodstuffs and beverages withdrawn by such state owned and operated institutions and used or consumed in furnishing meals as outlined in paragraph (3) are not subject to sales tax. §40-23-2(1)

(5) When city and county owned and operated hospitals, infirmaries, sanitariums, and like institutions operate cafeterias that serve meals to the public, such institutions are not required to collect and remit sales tax on sales of meals to their customers. 810-6-2-.32 House Trailers And Mobile Homes.

(1) The gross proceeds of sales of house trailers or mobile homes are taxable at the reduced automotive rate of sales or use tax. Where any house trailer or mobile home is taken in trade as a credit or part payment on the sale of a new or used house trailer or mobile home, the measure of sales or use tax shall be the price of the new or used house trailer or mobile home sold less credit for the house trailer or mobile home taken in trade. (Sections 40-23-2(4) and 40-23-61(c), Code of Ala. 1975)

(2) The reduced automotive rate of sales or use tax also applies to parts, attachments, or accessories for house trailers or mobile homes purchased from the dealer as a unit along with the house trailer or mobile home. Parts, attachments, or accessories purchased from the dealer after title and possession of the house trailer or mobile home has passed to the purchaser are taxable at the general rate of sales or use tax.
The dealer's sales invoice shall be the basis for determining the applicable tax rate unless there is conclusive evidence that the invoice does not reveal the true facts. (Sections 40-23-2(1) and 40-23-61(a), Code of Ala. 1975)

(3) Where a dealer purchases parts and materials or withdraws parts and materials from a stock of goods for use in repairing or reconditioning house trailers or mobile homes which (i) are owned by the dealer, (ii) are offered for sale by the dealer, and (iii) are not for the dealer’s own use or consumption, the parts and materials would be exempt from sales or use tax when purchased or withdrawn from the dealer’s stock of goods. (Sections 40-23-1(a)(9)k and 40-23-60(4)j, Code of Ala. 1975)

(4) Mobile home set-up materials and supplies are taxable at the reduced automotive rate of sales or use tax. These items qualify for the reduced rate regardless of who sells them or to whom they are sold provided the facts substantiate that they were used to set-up a house trailer or mobile home. The term "mobile home set-up materials and supplies" shall include steps; blocks; anchoring materials such as cable, straps, and buckles; and pipe. The term shall not include tape or other similar supply items which lose their identity or are not passed on substantially intact to the owner of the mobile home. The term "mobile home set-up materials and supplies" shall not include hand tools or electrical tools used to set-up a mobile home and not becoming a part of the mobile home dwelling. 810-6-2-.36.05  Lay-Away Sales.

(1)  The Sales Tax Law defines a sale as follows: "installment and credit sales and the exchange of properties as well as the sale thereof for money, every closed transaction constituting a sale."  It has been held that Alabama sales tax applies only to sales that are "closed" within the state and that, for tax purposes, sales are closed when title to the goods are passed to the purchaser.

(2)  The time that title to the goods passes as designated by the lay-away contract is determinative of the time that sales tax is due.  If there is no lay-away contract or the contract is silent as to the time title transfer, amounts received in payment of the sales price of property held by the seller until the total amount of the sales price is paid to him are not taxable until the total sales price, including the service charge, has been paid and the property delivered to the purchaser.
(3) If the customer fails to complete payments under the lay-away agreement and obtains from the retail merchant a refund of those payments, excluding the service charge, and title has not passed, the retail merchant is entitled to a credit for any sales tax previously paid to the Department upon the transaction regardless of the amount refunded to the customer. In an incompleted lay-away transaction there can be no "return" since the customer never obtains delivery of the goods. (Alabama Dept. of Revenue; Chief, Sales & Use Tax Division; adopted October 1, 1959; readopted under APA October 31, 1982; amended December 5, 1984; amendment effective January 10, 1985)

810-6-2-.46.01 Marine Dealers, Sales By. The proper rates of state sales tax to be paid on sales of boats, motors, trailers, and other items associated with the marine industry are as follows:

(a) Boat trailers sold alone are taxable at 2 percent of the net difference paid.

(b) Boat motors sold alone are taxable at the general rate of 4 percent of the total selling price.

(c) Nonautomotive boats sold alone are taxable at the general rate of 4 percent of the total selling price.

(d) When a boat without a motor is sold with a trailer, the total selling price of the boat is taxable at the general rate and the trailer is taxable at the automotive rate on the net trade difference (total selling price of the trailer less credit allowed for a qualifying automotive unit traded-in) provided the board and trailer prices are separately stated on the dealer's invoice. To qualify for the trade-in allowance, the unit traded-in for the trailer must qualify as an automotive unit. If the boat and trailer prices are not separately stated on the invoice, the total selling price of the boat and trailer is taxable at the general rate with no deduction allowed for a trade-in.

(e) Boat, motor and trailer sold as a unit is taxable at 2 percent of the net difference paid if it qualifies as an automotive vehicle.
Chapter 810-6-2

(f) If a dealer removes a motor from a customer's unit classified as an automotive vehicle, accepts it as part payment of another motor, and installs the new motor, the tax is computed at 4 percent of the net difference paid. A motor sold with a motor traded that is not part of an automotive vehicle at the time of the sale is taxable at 4 percent of the total selling price.

(g) Coast Guard required equipment and accessories such as, but not limited to, life jackets and fire extinguishers included in the price of boat, motor and trailer, are taxable at 2 percent of the net difference paid. Skis, ropes, etc., are taxable at the general rate of 4 percent.

(h) Depth finders, trolling motors, and other permanently attached accessories sold with unit at time of original purchase are taxable at 2 percent of the net difference paid provided the unit qualifies as a motorboat with built-in motor, or boat with outboard type motor attached thereto by attachments intended to be permanent rather than readily movable, and which motor is controlled with remote controls built on or into the hull of said boat.

(i) Boat, motor and trailer sold by dealer for an individual is subject to the tax in the same manner and at the same rate as a boat, motor and trailer owned and sold by the dealer.

(j) Boat, motor and trailer sold with trade-in allowed (Example: New unit $10,000.00, credit for unit traded $5,000.00, net difference $5,000.00) would be taxable at 2 percent of net difference paid provided both units qualify as an automotive vehicle as outlined in (h).

(k) Sail boat sold alone is taxable at 4 percent of total selling price.

(l) Sail boat sold with auxiliary motor permanently attached so that it qualifies as an automotive vehicle as outlined in (h) is taxable at 2 percent of the net difference paid.

(m) Aluminum fishing boat sold alone is taxable at the general rate of 4 percent of total selling price.

810-6-2-.47 Material Handling Equipment.

(1) Equipment used for transporting materials to the plant of a manufacturer, processor, or compounding or used for transporting finished products from such plants is taxed at the general 4% rate.

(2) The movement of materials or products purely for transportation purposes is not manufacturing, processing or compounding. In Alabama - Georgia Syrup Company v. State, 42 So. 2d 796, the Supreme Court of Alabama stated with reference to platform trucks used for moving the company's products in the process of blending and packing. "We do not think that platform trucks are machines within the meaning of the exemption. They are obviously used in transportation from one point in the plant to another and not in compounding and manufacturing of tangible personal property."

(3) The general rule with reference to transportation equipment is that it is taxable at the general rate of 4% up to the point where the materials go into process, the equipment feeding the first processing machine being taxed under the machine levy at 1 1/2%.

(4) Equipment for transporting the finished product is subject to tax at the general 4% rate, the last equipment to come under the machine levy being that equipment which discharges the finished product from the last machine used in the process.

810-6-2-.64 Piping In Manufacturing Plant.

(1) Piping furnished and installed by contractor along with pump houses and well connections is subject to use tax when intended for use by a paper manufacturer to supply his plant with the water necessary to the manufacturing of paper. The Supreme Court of Alabama held that the pipe and other materials used were building materials which are made taxable at the general tax rate by the building materials provision found in the definition of "sale at retail." (Layne Central Company v. Curry, 8 So. 2d 839)
(2) Please note that the Supreme Court has in the Wilputte Coke Oven case made a distinction between "building materials" and recognizable parts and attachments for machines. See Rule 810-6-2-.41 Machines Furnished and Installed by Building Contractors. §§40-23-1(10), 40-23-2(3)

810-6-2-.65 Plates, Printers.

(1) Plates purchased by a printer for use as a part or attachment for a machine used in printing tangible personal property are subject to the sales and/or use tax at the machine rate of 1 1/2%.

(2) Materials purchased by a printer for use in making plates that become a part or attachment to a machine used in printing tangible personal property are subject to the sales and/or use tax at the machine rate of 1 1/2%.

(3) The plates or materials used in making plates are taxable to the printer at the time of purchase even though the plates may pass to the printer's customer after use by the printer.

(4) An example would be a person needing business cards with his picture shown thereon. The printer does not have the facilities to make the type plate needed; therefore, he purchases the plate needed to print the cards from a person in the business of making plates. 810-6-2-.66 Platform Trucks. In Alabama-Georgia Syrup Company v. State of Alabama, 42 So. 2d 796, the Alabama Supreme Court held that platform trucks "used for moving the company's products in the process of blending and packing the syrup in the plant" are not exempted by the machine exemption "under old sales tax law." The court stated: "We do not think that platform trucks are machines within the meaning of the exemption. They are obviously used in transportation from one point in the plant to another and not in compounding and manufacturing of tangible personal property." §40-23-2(1)
810-6-2-.66 Portable Power Saws.

(1) The Sales and/or Use Tax Laws levy a tax of 1 1/2% on the net difference paid for any machine, machinery, or equipment used in planting, cultivating, or harvesting farm products or used in connection with the production of agricultural produce or products, livestock, or poultry on farms.

(2) The machines and machinery including chain saws used in production and harvesting of timber grown on tree farms, including pulpwood are taxed at 1 1/2%. Chain saws used for clearing land, cutting firewood, or other nonagricultural uses are taxed at 4%. (§40-23-2(3), adopted March 9, 1961, amended July 27, 1964, amended June 12, 1978) §§40-23-37, 40-23-2(1)

810-6-2-.78  Repairs, Machine.

(1) When repairs require service only or service with the use of an inconsequential amount of materials, the amount received is not subject to tax.

(2) When materials and service are used in repairing machines taxed at the special machine rate and when there is no separation in the billing, both materials and services are to be included in gross proceeds of sales at the special rate.

(3) When materials and service are used in repairing machines taxed at the special machine rate with service and materials shown separately, the materials only are subject to the tax.

(4) Materials are taxable at the general rate in any event when sold to repairmen for use in making repairs when such materials lose their identity as the result of such use; for instance, paint, solder, lumber, and sheet metal.

(5) When both materials and services are used in repairing machines taxed at the general rate and when there is no separation in the billing, both materials and services are to be included in the measure of tax to be paid. Both are taxed at the general rate. When the materials are shown separately on the invoice, the materials only are taxable. (Adopted March 9, 1961, amended November 1, 1963)

Parts and attachments furnished by repairmen in reconditioning or repairing electric motors and electric generators are sold by the repairmen to the owners of the motors and generators. The repairman's sales of repair parts, such as ball bearings, brushes and wire used in rewinding, are subject to the sales tax. These parts and attachments are purchased at wholesale tax free by the repairman.

Materials which lose their identity because of use by a repairman in repairing or reconditioning electric motors and electric generators, such as solder, babbitt, varnish, and insulation paste are subject to sales or use tax when purchased by the repairman. The tax shall be paid to the repairman's supplier or direct to the Department of Revenue as the circumstances require. Provided, however, where a repairman is engaged in the business of selling such repair materials, as well as using them, he may purchase at wholesale all repair materials which he both sells and uses in making repairs and pay direct to the Department of Revenue as sales tax the amount due on both sales and withdrawals from stock for use.

The repairman's charges for labor used in installing parts and materials are not to be included in the measure of tax to be collected from his customers and paid to this state where such charges for labor are separately invoiced by the repairmen to his customers and where the books and records of the repairman are kept in such a manner as to clearly reflect receipts from making installations and rendering services.

In those instances where repair parts are used in repairing or rebuilding a motor or generator used in such a way that it would be taxed at the special machine rate, such repair parts are also taxed at the special rate.

810-6-2-.79.04 Restaurants, Equipment And Supplies.

(1) Restaurants and cafeterias are considered to be processors and compounders of food products for sale; therefore, they are entitled to purchase machines used in processing and compounding at the reduced rate of 1 1/2%.

(2) The machines falling in this category include, but are not limited to, meat slicers, burger patty makers, ice machines, coffee makers, shredders, electric mixers, electric food cutters, french fry machines and ranges.

(3) Items not falling in this category, such as refrigeration units, pots, pans, stainless steel work tables, hand tools, and similar items are taxable at the general rate of 4 percent. §§40-23-2(1) and 40-23-2(3)

(1) Except as outlined in paragraph (2), retail sales of tangible personal property made by all schools and
colleges owned and operated by the State of Alabama are subject to sales tax.

(2) Sales by elementary or secondary schools owned and operated by the State of Alabama are exempt from sales tax when the net proceeds from the sales are used solely for the benefit of the elementary or secondary school.

(3) Sales made by all colleges, universities, or other institutions of higher learning, both privately and publicly owned and operated, are by specific provisions of the Sales Tax Law subject to sales tax.

(4) If a student activity fee is collected from each student as a lump sum not broken down and covers the yearbook which is then supplied without further charge, the distribution of the yearbooks to the students is a service of the school not subject to tax.

(5) Gross proceeds of sales made by schools (not including institutions of higher learning) owned and operated by the counties and municipalities of the State are not subject to sales tax.

(6) Gross receipts from athletic contests conducted by or under the auspices of state-, city-, and county-operated educational institutions, other than primary or secondary schools, are subject to sales tax. Such institutions must collect the sales tax on their gross receipts from athletic contests and remit the tax to the Department of Revenue. State-, city-, and county-operated primary and secondary schools shall collect the sales tax on their gross receipts from athletic contests including receipts from any football playoff conducted by or under the auspices of the Alabama High School Athletic Association; but, instead of remitting the tax collected to the Department of Revenue, the tax shall be retained by the collecting school and used by the school for school purposes. Effective July 1, 2006, pursuant to Act #2006-602, this exemption and retention of the sales tax collected shall apply to any athletic event conducted by or under the auspices of the Alabama High School Athletic Association. With the exception of athletic events conducted by educational institutions other than primary or secondary schools, no sales tax is due on receipts accruing from admissions or fees from other amusements or entertainment conducted by schools and colleges owned and operated by the State of Alabama, a county or city of the State of Alabama. 810-6-2-.88.04  **Exemption For Certain Sales By Elementary And Secondary Schools, School Sponsored Clubs and Organizations, And School Affiliated Groups.**

(1) The term “elementary or secondary school” as used in Act No. 96-653 and in this regulation shall mean both public and private schools where the curriculum consists of one or more of grade levels K through 12. The term “elementary or secondary school” shall not include nurseries and day care centers nor shall it include private schools at which the courses of study are limited to specialized subjects such as dance, horseback riding, music, cooking, or sewing.

(2) Provided the net proceeds from the sales are used solely for the benefit of the elementary or secondary school, sales and use taxes do not apply to sales by the following:

(a) elementary or secondary schools, 

(b) nonprofit elementary or secondary school-sponsored clubs and organizations, or 

(c) nonprofit elementary or secondary school affiliated groups, such as parent-teacher organizations and booster clubs whose membership may be composed of individuals other than students.

(3) The exemption outlined in paragraph (2) above also applies to sales resulting from agreements or contracts entered into with resident or nonresident organizations to participate in fund-raising campaigns for a percentage of the gross receipts where students act as agents or sales persons for the organizations by selling or taking orders for the sale of tangible personal property. Neither the school, club, organization, or group enumerated in paragraph (2) nor the resident or nonresident organization with whom the school, club, organization, or group contracts is required to collect or remit sales or use tax on the tangible personal property sold for fund-raising purposes.

810-6-2-.92.02 State, County And City, Sales Made By.

The counties and cities of the State of Alabama and the agencies and the instrumentalities thereof are not required by the provisions of the Sales Tax Law to collect or to pay the Department of Revenue sales tax because of sales of tangible personal property made by them, except those
institutions of higher learning operated by the cities and the counties must pay sales tax on sales made by them.

(2) The Sales Tax Law by specific provisions requires state-, city-, and county-operated educational institutions, other than primary or secondary schools, to collect and remit to the Department of Revenue the tax levied on admissions to athletic contests. State-, city-, and county-operated primary and secondary schools shall collect the sales tax levied on admissions to athletic contests including admissions to any football playoff conducted by or under the auspices of the Alabama High School Athletic Association; but, instead of remitting the tax collected to the Department of Revenue, the tax shall be retained by the collecting school and used by the school for school purposes. Effective July 1, 2006, pursuant to Act #2006-602, this exemption and retention of the sales tax collected shall apply to any athletic event conducted by or under the auspices of the Alabama High School Athletic Association. (Section 40-23-2(2))

(3) The Sales Tax Law also requires the State of Alabama and all of its agencies or instrumentalities to collect and remit to the Department of Revenue the sales tax levied on sales of tangible personal property. (Readopted through APA effective October 1, 1982, amended June 5, 1992) (§40-23-2(1))

(2) "We pointed out that the taxpayer kept no proper record to indicate these sales or differentiate them from the remainder of the gross sales shown on his general ledger. He, himself, said this and testified his charge tickets, which had been destroyed, were his only records to distinguish such sales. Other evidence was of like import."

Paper Manufacturers, Tax Rates Applicable To

(1) Purchases of machines by paper manufacturers to be used in manufacturing, processing, or compounding tangible personal property and purchases by paper manufacturers of the parts, attachments, or replacements for these machines which are

(i) made or manufactured for use on or in the operation of the machines,

(ii) necessary to the operation of the machines, and

(iii) customarily so used are taxable at the reduced machine rates of sales and use tax levied in Sections 40-23-2(3) and 40-23-61(b). Examples of tangible personal property that are taxable at the reduced machine rate when purchased by paper manufacturers are:

(a) machine clothing - felts, screen plates, and wire

(b) tanks to be used in manufacturing

(c) recording instruments attached directly to manufacturing machinery

(d) pipes, valves, pipe fittings, and pipe fitting supplies attached to manufacturing machinery (all other pipes, valves, pipe fittings, and pipe fitting supplies are taxable at the general rate except for those which are used in a water treatment plant and, therefore, qualify for the pollution control exemption in Sections 40-23-4(a)(16) and 40-23-62(18))

(e) all machinery and equipment used to generate electricity including boilers, engines, condensers, generators, transformers, and attachments thereto (machinery and equipment
used solely for the transmission of electricity is taxable at the general rate)

(f) electrical equipment used as direct controls of manufacturing machines

(g) all transformers, wherever used

(h) insulating material, both bulk and preformed, which is applied to manufacturing machinery

(i) shafting, whether purchased prefabricated to exact size or unfinished to be cut and machined by the purchaser, when used on manufacturing machinery

(j) packing, whether purchased prefabricated or in bulk form, when purchased for use on manufacturing machinery

(k) steam hose purchased for use as a part or attachment to manufacturing machinery

(l) steel, steel plate, steel angles, bushing, bronze, steel shapes, and tool steel from which machine parts or attachments are fabricated

(m) fire clay and bulk lining materials

(n) equipment used in measuring, weighing, and packaging product when it is a part of the production line machinery and is used to put the product in condition for sale

(o) computers directly linked to manufacturing machinery and used to control or monitor manufacturing machinery

(p) machinery used during the manufacturing process to test or measure materials entering the product.

(2) Tangible personal property purchased by paper manufacturers is taxable at the general rate of sales or use tax levied in Sections 40-23-2(1) and 40-23-61(a) unless it qualifies for the reduced automotive, manufacturing machine, or farm machine rate of tax or for a specific statutory exemption or exclusion. Property purchased for use in general plant maintenance, administration, general management, or marketing is taxable at the general rate. The following items are taxable at the general rate of sales or use tax when purchased by paper manufacturers with certain exceptions as noted:

(a) steam hose used for cleaning purposes including bulk purchases of steam hose of the kind which may be used either
for cleaning the plant and plant equipment or for use as an attachment to manufacturing machinery (unless the purchaser can document that all of the steam hose purchased in bulk was used on manufacturing machinery)

(b) bulk or preformed insulating material not becoming an attachment to manufacturing machinery

c) machinery and equipment used solely to transmit electricity from the powerhouse to motor control centers on manufacturing machinery (these items transmit electricity rather than manufacture electricity)

d) all wire, fixtures, and other materials used in lighting

e) baling wire pulp for internal use

f) skid and anchor plates

g) steel strapping, when not furnished as part of a one-time-use container

h) gummed tape, when not furnished as part of a one-time-use container

i) wooden skids

j) pulpwood saws and saw parts (taxable at the reduced farm machine rate when purchased for use in harvesting timber)

k) yard switcher repair parts

l) safety shoes

m) lumber

n) magazine subscriptions

(o) repair parts for electric trucks

(p) office supplies

(q) laboratory supplies

(r) cafeteria equipment

(s) charts used on recording instruments that are attached directly to manufacturing machinery
(t) tractor repair parts
(u) paints
(v) auto, truck, and trailer repair parts
(w) hand-operated hoists and parts
(x) portable air compressors and parts
(y) tools
(z) first aid supplies, fire protection supplies and equipment, safety supplies and equipment
(aa) welding machines and parts
(bb) fuel oil
(cc) Dowicide (not taxable when it becomes an ingredient or component part of the paper manufacturer’s manufactured product)
(dd) Nopco K. F. foam killer (exempt when used primarily for air or water pollution control purposes)
(ee) seedlings and plants
(ff) repair parts for gas-driven and electric lift trucks (new units taxable at the reduced automotive rate)
(gg) building materials including brick, structural steel, concrete, lumber rails, paint, insulation materials, plumbing fixtures, and all other materials becoming a part of a structure
(hh) pipes, valves, pipe fittings, and pipe fitting supplies including those which are used in drinking water lines and fire protection lines (pipes, valves, pipe fittings, and pipe fitting supplies which are attached to manufacturing machinery are taxable at the reduced machine rate; those which are used in a water treatment plant qualify for the pollution control exemption in Sections 40-23-4(a)(16) and 40-23-62(18))
(ii) construction supplies including welding rods, acetylene, oxygen, screws, nuts, bolts, and rivets.
(3) The rates of sales and use tax applicable to purchases of used machinery and equipment by paper manufacturers...
are the same as the rates applicable to purchases of new equipment.

(4) Exemptions and exclusions which commonly apply to paper manufacturers include the wholesale exclusion for purchases of materials becoming an ingredient or component part of a manufactured product and the one-time-use containers or container components in which the manufacturer’s product is furnished, the exemption for oils and greases otherwise taxed as lubricants, and the exemption for certain railroad cars, vessels, and barges of over five tons load displacement. (Sections 40-23-1(a)(9)b, 40-23-1(a)(9)c, 40-23-4(a)(1), 40-23-4(a)(12), 40-23-60(4)b, 40-23-60(4)c, 40-23-62(4), and 40-23-62(17)
